

Among those who strenuously oppose such revolting happenings as whipping parties, probably have forgotten that father carried on similar dedications behind woodshed

VOLUME XX NUMBER 96

## WHIPPING GUARD FOUND GUILTY IN TABERT SLAYING

Higginbotham Sentenced for  
Twenty Years on Charge  
of Tabert Murder.

BONDED FOR APPEAL

Legislative Investigation is  
Cause of Dismissal of  
Two Officers.

(By the Associated Press)  
LAKE CITY, Fla., July 7.—Thomas Walter Higginbotham, late today was found guilty of murder in the second degree and sentenced to twenty years imprisonment in connection with the death of Martin Tabert of North Dakota. The jury was out one hour and twenty minutes.

Higginbotham was released on \$10,000 bond pending an appeal. The former convict whipping boss was accused of having caused the death of Tabert by beating him while the North Dakotan was serving a term in the Putnam Lumber company convict leased camp. The trial consumed thirteen days. The death of Tabert resulted in an investigation of the whole convict lease act and its abolishment by the Florida legislature. That body also prohibited corporal punishment.

Testimony in the legislative investigation from scores of witnesses resulted in the dismissal from office of Sheriff J. R. Jones and County Judge B. F. Willis of Leon county who arrested and sentenced Tabert.

Tabert was arrested for riding a freight train through Tallahassee and sentenced to three months imprisonment.

LAKE CITY, Fla., July 7.—With the re-appearance of Juror L. M. Chambers, whom a doctor said last night had been suffering from appendicitis, the box today, argument started in the closing chapter of the trial of Thomas W. Higginbotham, charged with the murder of Martin Tabert of North Dakota in a convict camp of the Putnam Lumber company.

## NO DEVELOPMENT IN SURRATT WELL

No Definite Information Given  
Out at Late Hour Saturday Night.

The Surratt No. 1 in the southwest corner of the northeast quarter of section 21-3-4, near Vanoss, is still a question, according to those who visited the well Saturday and those interested in it. Some difficulty was experienced with the casing and little new hole was made. The sand, according to the best reports, was free from water but was showing some lime.

A telephone conversation with J. B. McCauley, Vanoss banker, revealed that the little community is hopeful of big developments. Mr. McCauley is certain the well is a good paying proposition and that rapid development will result.

M. M. Valerius, who has the well in charge, could not be located Saturday night. What progress, if any, was made after night could not be learned up to midnight.

Many Ada citizens are planning to drive to the well Sunday. Those going should go by way of Vanoss and then south about three miles. The last part of the trip is thru Mr. Surratt's pasture.

No estimate of the probable production could be obtained Saturday night. Until the hole has been completed and the oil taken from the hole, this will be only a guess.

## Four Rural Schools To Open for Summer Work, Floyd Says

Four rural schools will open their doors Monday for summer terms of about two months to two and a half months according to A. Floyd, county superintendent. These schools are held at this time so that time may not be lost by the pupils during the height of the cotton picking season. The practice of holding summer sessions by such schools has been more popular in the past than at present but the summer sessions at East Central Teachers College here have absorbed some of the rural summer work and many teachers find their only opportunity for advancement in the college summer terms.

## INDIAN LIKES SPEED AND ACCIDENT FALLS

(By the Associated Press)  
PONCA CITY, July 7.—A speeding motor car driven by Dewey Donaldson, Osage Indian, collided with a bridge railing near Bartlesville last night with such force that a steel beam of the bridge pierced a hole through the engine block severed the driver's left leg, passed entirely through the automobile body and emerged from a trunk fastened on the rear of the machine, according to information given at a garage where the machine was brought today. Donaldson was probably fatally injured, it was said at a Bartlesville hospital to which he was taken. Seven other occupants of the wrecked automobile miraculously escaped injury. It was reported. The machine was hurled into a deep ditch, landing upside down following the crash.

## CLAIM FINANCES AT A-M SECURE

Wilson Maintains Payment of  
Deficit All Required by  
Government.

(By the Associated Press)  
STILLWATER, July 7.—A statement declaring that the Oklahoma A. & M. college is in no danger of losing federal aid because of an alleged deficit in federal funds at the college, amounting to \$28,600, was issued here today by George Wilson, president of the college.

President Wilson declared that if an audit of the books of M. J. Oley, former financial agent, revealed the shortage the United States authorities would merely require the deficit to be made up. He said only proof of present mismanagement would cause the federal funds to be shut off.

"Director of governmental experiment work pointed out that if the state audit does not pay into the federal funds the \$28,600 now short the United States will simply require that the past deficit be made up. The only circumstances in which federal aid would be denied would be in case of the fund being mismanaged at the present time."

"The government experiments at Stillwater now in progress could not be abandoned without enormous loss of scientific effort. At least one experiment is now in its 28th year and other long observations are being carried out."

## NEVADA TOWN IS SCENE OF RUIN

Entire Business Section of  
Goldfield in Wake  
of Fire.

(By the Associated Press)  
GOLDFIELD, Nev., July 7.—Goldfield, once a synonym for fabulous wealth, quick fortunes, gamblers, and all the hurry and bustle of a western boom town, is but another term for desolation today. The desert blew a windy blast yesterday, fanning a fire which officers said started as an episode in a bootlegger's feud, and swept the flames from end to end of the community. As a result, one man is dead, a woman reported missing, and damage estimated at approximately \$1,500,000 was done.

Of all the streets and houses known to the miners, the prospectors, and the sportsmen who flocked thither to see the Gans-Nelson lightweight championship fight in 1906 only half a dozen buildings were left today. The rest is waste, charred walls, moldering ashes and smoking ruins. Though for years Goldfield, which once was a city of 25,000, had more houses than its dwindling population needed, last night there were not roofs enough for the thousands remaining when the fire started.

Hundreds of refugees huddled on the hillside amid what possessions they were able to save, or slept as best they could in rehabilitated miners' shacks on the outskirts of the city. Others went by train or automobile to Tonopah, sister city of the desert, thirty miles away. They carried word that they and those left behind would rebuild the town.

## BALLOON PILOTS BELIEVED DEAD

Tug Picks Up Wreckage of  
Balloon Near Port  
Stanley, Ontario.

(By the Associated Press)  
CLEVELAND, July 7.—All hope that Lieutenant L. J. Roth and his aide Lieutenant T. B. Null, pilots of the missing navy balloon A-6689 which left Indianapolis on July 4 in the national elimination air race were living was abandoned here tonight. The crew of the tug Frank H. Stanley found the ill-fated aviator's complete uniforms, leather coats, log, records and charts entangled in the drifting half-inflated balloon bag about 22 miles south-southwest of Port Stanley, Ontario, about noon today.

On all sides the crew of the tug found mute evidence of a heroic struggle in midair. Evidently overtaken by terrific winds and an electrical storm Roth and Null fought desperately to ship their ballast and rise above the gale. Somehow the basket was ripped from the bag which was found seared and waterlogged by the crew of the Stanley.

Entangled in the ropes attached to the basket were found the complete outfits of the aviators which they must have doffed before they leaped from the doomed balloon.

(By the Associated Press)  
CLEVELAND, Ohio, July 7.—The Western Navigation Company, operating the steamer Colonial between here and Port Stanley, Ontario, received an unconfirmed report this morning that the Colonial sighted a balloon with baskets submerged drifting in Lake Erie last night. Company officials here said the Colonial reached Port Stanley this morning and is scheduled to leave there for Cleveland at 11 a. m. The steamer is not equipped with wireless and company officials have received no word from the captain regarding the balloon which is believed may be one which left Indianapolis July 4 in the national balloon race.

INDIANAPOLIS, July 7.—Fear that the balloon reported partly submerged and apparently unmanned about twenty-five miles from Port Stanley, Ontario, in Lake Erie, was that in which Lieutenants L. J. Roth and T. B. Null, naval aviators, left here July 4 in the national elimination race was expressed by officials of the contest today.

MOUNT CLEMENS, Mich., July 7.—Within thirty minutes after receiving word of instructions from chief of air service in Washington, A. D. H. Kline with two officers was ready to leave Selfridge Field here for Port Stanley, Ontario, to assist in the search for Lieutenants L. J. Roth and T. B. Null, naval aviators believed to have been lost over Lake Erie.

## Leaders Organize to Launch McAdoo for Presidency

(By the Associated Press)  
NEW YORK, July 7.—Detailed plans for launching a William G. McAdoo for president boom have been worked out at a dinner of a dozen of his most intimate friends here, The New York Evening Post said today. Although Mr. McAdoo has not formally announced his candidacy his supporters were declared to be confident his hat would be in the ring.

The dinner meeting ostensibly to honor Samuel B. Amidon, national democratic committeeman from Kansas, picked Mr. Amidon to handle the McAdoo campaign, the Evening Post says.

## PART OF WASHINGTON NAVAL LIMITATION ACCEPTED

(By the Associated Press)  
PARIS, July 7.—That part of the Washington naval accords dealing with limitation of armament and capital ships which created the most bitter opposition in French parliamentary and political circles during the past year was jammed through the French chamber of deputies today in record time by the Poincare-Briand alliance. The half-hearted opposition from socialists and communists was completely swamped and the treaty was adopted by a vote of 460 to 106.

## ROCKEFELLER TO SPEND QUIET 84th BIRTHDAY

(By the Associated Press)  
TARRYTOWN, N. Y., July 7.—John D. Rockefeller will celebrate his 84th birthday tomorrow at his home, Pocantico Villa. The celebration is scheduled to be a quiet one. In the morning Mr. Rockefeller will attend services at the new community church. He has invited only a few close friends to visit him in the evening.

## Pebble Puppy Finds Oil In Hotel

By HERTIS VOBSON

YES, we got no oil wells yet! Hon. Pebble Puppy, who sunk well in Harris hotel agrees that oil still flows in grocery store funnels while increased activity is high with price of gasoline at filling stations.

"Where gushes this magic oil well?" I splurge. "In T-5-N, R-6-E, S-36," Hon. Pebble Puppy gushes. "Is that Harris hotel?" I interrogate I, drilling conversation vigorously.

"What a dry hole, Vertis," off-goes Hon. Pebble Puppy, "such Greek alphabet synonyms for Bobee field."

"My expenditure, Hon. Pebble Puppy," splurges I again, "I am checked for want of salt water, thinking such was wonderful flow from such localities."

"You make an ignoble drill again, Hertsis," he clamps down. "Such sand as Simpson connects not with Atlantic ocean strata where salt water sand rolls on."

"But Hon. Pebble Puppy, is not Simpson sand same odor as Sulphur's artesian wells?" I drill I in again.

"Hertsis, can't I geology you?" Be scored at such an offset, Sulphur is too high to get oiled.

"What a sulphide exaggeration!" I spring loose. "Hon. Pebble Puppy could drill and get anything at Sulphur."

"Hertsis, I have reached my depth with you," angers Hon. Pebble Puppy, the only oil location at that place in on jelly bean's head.

"Why not hit oil on paper so I can sell this town again," I negotiate.

"Because oil wells are too far from Harris hotel," includes Hon. Pebble Puppy.

With this he quit me, another oil scout bringing news that some one had found fly oil well well in West Indies.

## MINE LEADERS HELD FOR INCITING STRIKE

(By the Associated Press)

ATLANTIC CITY, N. J., July 7.—John L. Lewis, international president of the United Mine Workers of America, has telegraphed the union leaders at Glace Bay, Nova Scotia, to call off the coal miners strike there because it is a violation of the existing contract and contrary to the principles of the United Mine Workers.

SIDNEY, Nova Scotia, July 7.—Dan Livingston, president, and James B. McLachlan, secretary of district 18, United Mine Workers of America, are under arrest as the result of the circulation yesterday of a letter over McLachlan's signature urging a general strike of the coal miners of the province.

The letter called upon the miners to "act at once" in protest against the alleged brutality by provincial police and dominion troops called to quell disturbances in connection with the strike of the employees of the British Empire Steel Corporation. Coal miners here already are on strike in sympathy with the striking workers.

Livingston and McLachlan were lodged in jail last night on order from the provincial attorney-general after McLachlan is alleged to have admitted that the letter had been sent out to all local unions in the district.

## DROUTH BROKEN FOR SECTION OF COUNTRY

The drouth was broken over an area in the western part of the county Saturday afternoon. According to reports, the rain extended both north and south of Vanoss and was heavy around the Valerius oil well. A light shower was reported from Oakman.

Beyond question corn and other feed crops are badly in need of rain at this time, but cotton is not suffering and just what effect a general rain would have on the boll weevil situation is uncertain.

## TO HEAR MOTION IN RODDIE CASE

Seventy-Five Witnesses Held  
in Check for Hearing  
on Venue Change.

Approximately seventy-five witnesses subpoenaed to appear here Monday morning at 9 o'clock for testimony in the case of Reuben M. Roddie, charged with murder, have been notified not to appear after an agreement that a motion for change of venue would be heard without contest.

While a few of the witnesses subpoenaed may not have received the countermanning order, the majority will be relieved of testifying at the present time, County Attorney J. W. Dean stated Saturday.

Approximately 40 witnesses had been subpoenaed by the state's attorneys locally and about half that number for the defense. A number of witnesses had been subpoenaed from this and other states. Several witnesses had migrated beyond the search of subpoenas, owing to the fact that the case has been pending for a number of years.

When Assigned Judge C. C. Smith of Guthrie takes the bench in the disposition of the motion for change of venue in the case, another chapter will be marked down in this most sensational of murder cases in the district court here.

Wearing heavily from its long stay on the appearance docket in district court, the case comes for another evasion of the real issue after being handed down from its first step to prosecution in 1918.

The case was brought to trial in 1921, a conviction rendered and a sentence of ten years handed down on a charge of manslaughter. The decision was reversed and the case sent back for retrial. A motion for change of venue was overruled and further held up because of a lack of court funds and remained idle until the docketing for July 9.

The legal battery for the defense in the case will consist of J. B. Dudley of Oklahoma City, Ben F. Williams of Norman, Robert Wimshis and King and Crawford of Ada. County Attorney J. W. Dean stated that W. W. Pryor of Holdenville will probably assist in the prosecution.

## Navy to Maintain Efficiency With Low Ships Quota

(By the Associated Press)

WASHINGTON, July 7.—The United States will maintain at full efficiency during the next fiscal year a minimum naval force at sea of eighteen first line battleships, fourteen cruisers, and eighty-four submarines, under a decision by the general board, formally approved by Secretary Denby.

The decision is viewed as significant in view of the uncertain status of the five-power naval treaty resulting from the continued delay of France to ratify. An analysis of complete program shows that the navy will keep at fighting trim and at sea the full strength allotted to the United States under the treaty.

## County Man is Finder of Relic Of Yesteryears

J. W. Reed, who lives near the old Collins Institute, brought to the city today what he believes is the tooth of a giant mastodon, which is supposed to have inhabited this country centuries ago. The tooth, which is now petrified, weighs 18 pounds and would indicate that the huge monster must have weighed at least 15 to 20 tons.

The tooth was found by the side of the road and had been imbedded in clay.

The interesting relic can be seen in the window of Simpson's on West Main Street, where it will remain for several days.

## NICHOLAS ARRESTED FOR FRAUDULENT MAIL USE

(By the Associated Press)  
OMAHA, July 7.—L. V. Nicholas of Chicago, president of the National Petroleum Marketers association and former president of the L. V. Nicholas Oil company of Omaha, was indicted today on charge of using the mails in pursuance of a scheme to defraud in connection with the sale of stock in the latter concern prior to July 1, 1919.

## Many Killed in Wreck (By the Associated Press)

LONDON, July 7.—Many persons were killed and fifty seriously injured in a train collision in the center of Berlin today, says a Central News dispatch from the German capital.

## REPAIRS BEING MADE ON SCHOOL BUILDINGS

Repairs to the extent of about \$5,000 are planned for school buildings of the city, according to Superintendent J. E. Hickman. These repairs will include putting into shape the roofs of all the city school buildings. The roofs will be repaired and repainted in preparation for the opening of school here in September.

Among additions to the equipment of the buildings will be drinking fountains on the outside of each building. These fountains will be solidly constructed with concrete bases.

The grounds will be put into shape for use in the coming year. Willard school building will be the scene of the construction of another room in order to accommodate the numbers of children who are taught there.

## WHIPPING PROBE IN CADDO COUNTY

Officials Await Investigation  
of Mob Action Reports  
by Grand Jury.

(By the Associated Press)

ANADARKO, July 7.—The second stage of the state investigation of alleged whippings by masked men in Caddo county is scheduled to start Monday when a grand jury will be empaneled by Judge Will Linn in district court. A court of inquiry conducted recently by W. H. McKenzie, assistant attorney general, failed to reveal information sought by the state and the grand jury was called upon order from Governor J. C. Walton.

Caddo county citizens are intensely interested in the outcome of the grand jury investigation in view of the governor's recent declaration that "Caddo county is on the verge of the same thing," that caused him to declare martial law in Okmulgee county. The governor charged that mob rule gripped Okmulgee county.

The governor said that he would place the military in Caddo county if "one more whipping is reported there."

The court of inquiry sought information regarding the reported whipping of Claude Nathan, son of one of the most prominent merchants in Caddo county and it is assumed that the grand jury will seek to complete the inquiry into the case.

It has been pointed out, however, by county officials that the alleged whipping took place in Grady county and that none of the details can be unearthed here.

Guy Gillette, court clerk, said the grand jurors have been called to appear at 10 o'clock Monday morning.

## NEW LEADER FOR UNION IN STATE

Delegates Condemn Oklahoma  
Cotton Growers in  
Durant Meet.

(By the Associated Press)

DURANT, Okla., July 7.—Delegates from over Oklahoma met here today and elected J. P. Russell of Bryan county, president of the Oklahoma division of the farm labor union of America. C. E. Towrey of Coal county was chosen vice-president and J. S. Meredith of Choctaw as secretary-treasurer.

The convention was called by the national headquarters of the farm labor union at Bonham, Texas, to reorganize the union in Oklahoma as a result of the recent revocation of the Oklahoma charter and expulsion of the state officers.

The convention voted unanimously to disapprove any agreement made with the Oklahoma Cotton Growers association.

One of the principal charges brought against J. B. Laughlin, former state president, and other ousted Oklahoma officials by the national executive committee was that they attempted to bring the Oklahoma members of the union up to market all cotton through the cotton growers association, a common marketing organization.

Harmony characterized today's meeting. The executive committee was asked to appoint a grading salesman agent at once. George Wilson, president of Oklahoma A. and M. college, addressed the convention.

## SENATORS POINT OUT REMEDY FOR PRESENT MUDDLE

Demand Special Session State  
Legislature to Affirm  
Recess Appointments.

ANGLIN IS LEADER

Speaker Declares Conditions  
Must be Altered to Save  
Party in State.

(By the Associated Press)

OKLAHOMA CITY, July 7.—Eighteen democratic members of the state senate who met here today at the invitation of Gov. J. C. Walton adopted a resolution calling upon the executive to summon an extraordinary session of the senate immediately for the purpose of passing upon recess appointments, including the naming of George Wilson as president of Oklahoma A. and M. college.

Of the twenty-one senators attending the conference, three refused to sign the resolution.

The senate took the governor to task for being "misled" by men who "pretend" to represent the farmer and labor groups of the state; overlooking in general business organizations and industries in his zeal for the needs of the farmer and labor class; countenancing the appointment of George Wilson "and other extreme radicals" to important state positions; "deplorable condition" surrounding the extension of executive clemency; allowing "an army of hangers-on" to weight down the state payroll; issuing peace officers commissions.

Governor Walton pleaded for George Wilson in the closing hours of the conference. "He is president of the college; give him a chance," he urged.

Those close to the governor tonight expressed the belief that he would not call a special session of the senate to act on confirmation of recess appointments as requested by the caucus.

Anglin is Spokesman

Tom Anglin, president pro tem of the senate, acted as spokesman for the senators. Aldrich Blake, executive secretary, was the governor's only advisor in the executive session.

Meeting behind closed doors at a luncheon tendered by the governor the senators remained in session until 7 o'clock this evening. The governor left the conference at 4:30 o'clock.

Senator Anglin addressing the governor during the conference, declared that if the democratic party is to be saved in Oklahoma there must be an immediate remedying of conditions responsible for a wave of criticism of the administration sweeping the state.

"No man carrying the endorsement of the farmer-labor reconstruction league can win in the next general election," declared Senator Anglin.

"George Wilson is unfit to head any educational institution," the president pro tem asserted, adding that the Oklahoma A. and M. college will be wrecked if those now in charge of the college are permitted to remain in office.

Offer Way Out.

Offering the governor a way out of the controversy over Wilson's appointment Senator Anglin urged that the senate be called in special session to pass upon the board of agriculture appointees named since the legislature adjourned, whom the governor says are responsible for the naming of Wilson.

The senate in a communication prepared for the governor after he left the conference said they were his friends and were willing to help him "at all times in any honest endeavor."

The statement was signed by Wash. Hudson, chairman of the democratic commission; Earl A. Brown, J. H. Carlock, L. R. Hughes, W. M. Gulager, E. M. Reed, W. C. Lewis, Harry Jones, W. H. Woods, John E. Lutterel, Floyd A. Calvert, L. P. Bobo, W. S. Cline, Ross Lillard, Clark Nichols, Joe S. Ratliff, Tom Anglin, and Ed S. Jones.

Senators Darnell, Meninger, and Parker refused to sign the communication. Darnell stated he believed his constituents were in sympathy with the governor; Meninger did not wait the statement made public; and Parker refused to state his reasons.

## SEVERAL PERSONS REPORTED KILLED IN TRAIN WRECK

(By the Associated Press)

TAMPA, Florida, July 7.—According to a report received here this afternoon several persons were seriously injured at 1 o'clock when fast passenger train No. 80 on the Atlantic Coast Line was wrecked near Chesney, twelve miles east of here. All the ambulances in the city and a number of physicians left for the scene of the reported wreck. The train was en route here from Jacksonville.

## AIR ROUTES NOW PLAN OF BRITAIN

Commercial Aviation to Claim  
Important Role in  
Service Now.

LONDON.—The latest plan for commercial aviation in England is the establishment of a British Imperial Airship service which will connect England with all the British possessions by regular air routes. The first part of the scheme, which was originated by Commander C. D. Burney, R. A. F., provides for the establishment of a service of super-Zeppelins to Australia. This has been placed before the Air Ministry, and there is every prospect of its adoption. The Burney scheme would almost immediately make England the foremost country in commercial aviation, and add considerably to the strength of the air forces.

The fact that England has not already a gigantic fleet of commercial planes is not due to lack of enthusiasm on the part of the commercial aviation companies. The English companies now operating air lines to Paris and Holland, with the aid of subsidies from the government, are making a success of their projects.

The government has previously been reticent in accepting these plans because of the huge sums involved and the small chance of such lines ever paying, but it is now expected that the Air Ministry will push the establishment of new air routes.

Briefly the scheme provides for the establishment at once of a super-Zeppelin service between London, India, and Australia. The Zeppelins will carry 200 passengers, goods and mail, and make the trip to India in three and a half days and to Australia in a week. Such airships will have a speed of 80 miles an hour and will be capable of a non-stop flight of 12,000 miles, about half way around the earth. This would cut the traveling time between these places to less than one-fourth the present time.

If the scheme is approved the service will start in about eleven months with a bi-weekly service of passenger ships from London to Bombay and a little time later, to Perth, Australia. The ships will not use gasoline as fuel. They will be the first to use a non-inflammable mixture of kerosene and hydrogen, which has just been perfected by experiments under the direction of the Air Ministry.

The second stages of the Empire service will be the establishment of a route to Canada, which will be followed by services to South Africa, Hong-Kong and Singapore,

## NEWS NOTES FROM MOVIELAND

Rosemary Theby is now playing her 500th role in pictures as Countess Olga Loschek in support of Jackie Coogan in "Long Live the King." This sounds like a very long record and induces us to visualize Rosemary as a tottering old lady worn out with age and work. Her picture certainly does not look that part, now does it?

Twelve years ago—in the old stock days—pictures were turned out in less than a week, and the members of those stock companies often worked on two or more pictures at the same time, so it can be seen how Miss Theby got a good start for her 500th role without adding materially to her weight of years.

In the old days with Vitaphone her associates included Norma Talma, Edith Story, Magrice Costello, Earl Williams, Lillian Walker, John Bunny and many others. Later with Meyers she co-starred in a series of domestic comedies which had their part in popularizing the California type bungalow all over the world. Two of her later plays have been as the wicked queen in "The Connecticut Yankee," and as Nina, the Spanish damsel in "The Girl of the Golden West," in Mary Roberts Rinehart's story, "Long Live the King," she has one of her famous adventures roles as Countess Olga Loschek lady in waiting to the crown prince's aunt.

ess Olga Loschek lady in waiting to the crown prince's aunt.

## Smyrna Emerging From Loss Caused by Flames of Hatred Destruction

(By the Associated Press)  
SMYRNA.—After ten months of death-like stillness which followed the devastating fire, Smyrna has taken on a new lease of life. Quay Street, which skirts the waterfront, has been cleared of debris and the familiar one-horse tramcars again are running. Two moving picture concerns which feature American films are operating conveniently near the spot where passenger ships tie up. Turkish newsboys cry out a two-page edition of a daily French propaganda paper, and the cafes are running full blast. The American flag is still flying from the quay, but is in a new place. It was removed from the burning consulate at the height of the fire in September, 1922, and again when the temporary consulate was destroyed by a blaze several months ago.

American tobacco men who have straggled back to Smyrna have been surprised at the commercial activity of the city. Exportations of figs, raisins and tobacco have revived

in a small degree, and some steel rails and building materials are being imported. The Turks, the Americans say, are making a big effort to give the lie to those who prophesied Smyrna would remain a dead city under their rule. In this the Turks are being assisted by a generous sprinkling of Dutch, the oldest of the western colonies in Smyrna before the fire, and Italians, a new importation, who are jealous of French efforts to capture the trade of the once prosperous community.

Ten months ago there were 200,000 Greeks in Smyrna and another 150,000 in the flourishing hinterland. Today the only Greeks in Smyrna are prisoners of war working under the lash of dark-skinned Turkish non-commissioned officers and guarded by Turkish privates with long-bayoneted rifles. Carrying steel rails with their bare hands from ships in the harbor and clearing debris from the narrow, winding streets emerging from the water-front are their chief labors.

## PRaise HARDING ON BOOZE STAND

Christian Endeavor Conference  
Holds Up Hands of  
President.

(By the Associated Press)  
DES MOINES, July 5.—Resolutions were introduced at tonight's session of the 29th International Christian Endeavor convention commending President Harding for his support of the Eighteenth Amendment and the Volstead Act and pledging support to candidates for public offices and to the party that make unequivocal commitments to their enforcement.

The resolution was introduced at the instance of the executive committee of the United Society of Christian Endeavor under whose auspices the convention is being held.

The text of the statement follows:

"Prohibition has vindicated itself. In spite of great handicaps, its benign effects are now apparent in the steadily declining death rate as revealed in the bulletins of life-insurance companies in the 74 per cent decrease in drink cases with their attendant problems coming to charity organizations, and in the growing moral tone of our community life.

"The great gain on our far-reaching coast lines and wide extending international boundaries, present serious difficulties in law-enforcement and cannot now be expected to reflect the prohibition sentiment of the nation. For some time to come they will continue to deceive themselves and our visitors from other lands, who would rely on the reputation of national prohibition.

"Even these vast and cosmopolitan communities record unmistakable benefits accruing from the closing of saloons and bars—benefits that will increase steadily with the strengthening of the spirit and agencies of law-enforcement.

"For the bootlegger, we have only slightly less condemnation than for his patron. The latter, from the standpoint of individual morality, is essentially the worse, while in citizenship he is a greater menace. Striking at one law, he slashes all. He gives heart to every evil doer, and by the measure of his influence weakens the protecting wall that surrounds his life, his liberty and his temporal goods.

**Law Enforcement Cause**  
"In law-enforcement the supreme issue of the hour joins. The forces of nullification are active and determined. They have united powerful interests at home and abroad to embarrass public officials to break the morale of conscientious enforcing agents and to discourage public sentiment. They have found a spokesman in the governor of a great state.

"We declare here that state righteousness is greater than state rights, and that no state has rights which prohibition does not strengthen. We stand for liberty under law. We pledge ourselves anew to the Constitution of the United States. We commend the President for his repeated statements in support of the Eighteenth amendment and the Volstead Act.

"Speaking for four million enrolled young people, citizens and citizens-to-be, we further declare that no candidate for public office and that no political party, failing to make such unequivocal commitment, has the right to expect or will receive our support and votes.

"We believe that total abstinence is the only consistent attitude for a Christian and that the agitation for a modification of the Volstead Act to legalize light wines and beers is a subterfuge and blind. Those who advocate it now were but a short time since the stalwart defense of the open saloon and the liquor traffic. It is a dishonest issue.

"As the ultimate solution of the liquor problem for this nation was national prohibition, for which Christian Endeavor declared in 1911 with its militant slogan, 'A Saloonless Nation by 1920,' so the ultimate solution of the problem for all nations is world-wide prohibition. We here affirm our declaration of 1919, for 'A Saloonless World,' and pledge the full strength of our movement to the achievement of this high goal."

bors. They look cowed and tired. They work from daybreak until darkness and get a small ration of bread, olives and Turkish coffee. France, Italy, Czechoslovakia and Bolshevik Russia maintain energetic consulates and trade representatives. The entire British colony has deserted the city.

American destroyers and United States Shipping Board steamers call here regularly. Uncle Sam's freighters are capturing most of the cargo business in the Mediterranean from the British, French and Italians. Passengers and crews on all boats entering Smyrna Bay are required to wear life belts because of the menacing mine-fields laid by the Turks. A Turkish tugboat leads the American destroyers through the lane of mines.

Antipathy toward foreigners has not been wholly removed, and passengers are not permitted to land. American bluejackets, however, are always welcome, because the Turks have not forgotten how splendidly they behaved when the city was in flames.

**SUPREME COURT AFFIRMS  
JUDGMENT FOR WOMAN**  
OKLAHOMA CITY, July 6.—A \$30,000 judgment against a railroad engineer and the United States war-times railroad administration

for the death of an Oklahoma man struck by a train in 1918, has been affirmed by the state supreme court. Mrs. Della Lee White won the suit in the Custer county district court in 1919, after N. P. H. White

her husband had been killed at a crossing between Indianapolis and Clinton, Oklahoma, on the Chicago Rock Island and Pacific railway. F. C. Kulger was engineer of the train.

Goldwyn presents

**Come On Over**  
Rupert Hughes  
Directed by Alfred E. Green

Who wouldn't love her? Shane did—but he lost jobs so fast he couldn't send for her.

Then she arrived without notice—and found her sweet-heart meeting another girl at the priest's.

Maybe it didn't get her "Irish" up.

It's the funniest thing Hughes has written—it's homely, and human.

## Denny Graves to Show Youngsters Baseball Tricks

DES MOINES, Ia., July 7.—Youth has nothing but speed on two veterans—Johnny Corriden and Polly McLarry, who are helping make baseball history with the local Western League club. Corriden is having his first experience as a manager in addition to playing the left field, garden while McLarry is cavorting around first base in the style he showed when he was with three major league clubs.

Corriden is on the verge of celebrating his 36th birthday. The official records show that he is leading the league for driving in runs. McLarry in the past two weeks has come out of a batting slump that had him enthralled during the early part of the season and he is now smacking the ball to all corners. He is among the leading five hitters in the circuit and also ranks right at the top in fielding. He is rather slow in running bases, but outside of that he can show the youngsters a lot of the fine points of the game.

H. A. Kroger was down from Oklahoma City Saturday looking after his oil interests near Francis. He was one of the first men to see the oil possibilities of Pontotoc county and his faith is as strong as ever.

## GOOD MORNING!

With the birth of two more new parties announced yesterday it begins to look like 1924 will be one of the years that future generations will have to burn the midnight mazda to study about in the histories yet to be written.

## OUR DAILY REMINDER

Here's the proper prescription for comfort these hot days:  
"Remember where to find our fountain." Its the only real antidote for the heat.

Soda fountain service that you'll appreciate at Wozencraft's Drug store. 6-20-1f

Mr. and Mrs. John Adney and daughter, Lillian arrived Friday from Booneville Arkansas for a brief visit with Mr. and Mrs. L. E. Franklin before going to Center where they will visit indefinitely with Mr. Adney's parents.

We buy second hand furniture, paying best prices. Phone 438 Shelton Furniture Co. 11-9-1f

The temperature reached yesterday afternoon at the hottest time of the day climbed to a greatest height of 94 degrees, remaining there for the greater part of the afternoon, according to Dr. E. A. MacMillan, who has charge of the government thermometer here.

Thompson's floor oil is the best 75c per gallon at Thompson's Drug Store. 2-21-1f

Julius Jared of Lovelady community was in town Saturday with an arm in a sling and his head bandaged. As a result of being thrown from a load of hay under the feet of his team a few days ago, his shoulder was knocked out of place and his head badly bruised.

## TAFETTA DRESSES STILL POPULAR

Taffeta dresses still hold their place in popular favor. The one pictured is made of chestnut colored taffeta draped in a semi-bouffant effect.

## MANY TO ATTEND SCHOOL PARLEY

Prominent Men to Address Conference on Better Schools at Tulsa

Features of the Better Schools conference to be held in the auditorium of the University of Tulsa, July 11 will be addresses by prominent school men and special discussions in group meetings of the superintendents, principals, teachers, and those interested in rural education.

Among the speakers scheduled for the conference is P. P. Claxton, formerly United States commissioner of education and now superintendent of schools of Tulsa. Mr. Claxton is one of the best known school men in the nation and is taking up his duties at Tulsa this year.

The program for the conference is as follows:

**Morning Session**  
President J. S. Buchanan, University of Oklahoma, Presiding.

9:30-10:10—Co-operation of the Public Schools and the Demonstration Agents, Dean M. A. Beason, A. & M. College, Stillwater.

10:10-10:30—The work of the Oklahoma Education Association. Secretary M. R. Floyd, Oklahoma City.

10:30-10:40—Intermission.  
10:40-11:20—Address Dr. R. A. Schwiegler, Professor of Education, University of Kansas, Lawrence.

11:20-12:00—Address Hon. P. P. Claxton, formerly United States Commissioner of Education, now Superintendent of Schools, Tulsa.

**Lunch**  
1:30-3:30—Afternoon conference.

**Superintendent's Group.**  
Subject: The rising Cost of Education. Superintendent R. G. Tighe, Muskogee, presiding.

**Teachers' Group**  
Subject: Making Classroom Use of the Results of Tests. Professor L. S. McLeod, Department of Education, University of Tulsa, presiding. Speakers: Dr. Schwiegler and others.

**Rural Education Group**  
Subject: Greatest Needs of Rural Schools. Mrs. Hallie Peters, County Superintendent Creek County, presiding. Speakers: Superintendent Claxton and others.

**CURTIS FLOYD GOES TO JOHNSTON COUNTY**

Curtis Floyd has resigned his position as superintendent of the Latta Consolidated school and accepted that of farm demonstration agent of Johnston county. He entered on his new duties about a week ago.

The new agent was one of the original club boys of Pontotoc county and carried off many honors at various fairs. He completed his education at the A. and M. college where he received his degree a year or two ago.

**Oklahoma Leads Parade**  
(By the Associated Press)

DES MOINES, July 7.—The Oklahoma delegation to the World Christian Endeavor convention here will lead the parade of all the delegates. The other states will follow gram today. The Oklahomans obtained this honor because their state exceeded its quota of delegates. Th other states will follow Oklahoma in alphabetical order.

About one in every 2000 children is born with a hare lip, but many are perfectly restored in speech and appearance.

### METHODIST PRIMARY DEPT. ENJOY OUTING TRIP.

About thirty-five members of the Primary department of the Methodist Sunday school were delightfully entertained with an outing at the City Park Thursday afternoon by Mrs. R. E. Haynes, Superintendent of the department and the teachers. Games, kodaking and etc. were the chief amusements. Ice cream was served.

### MRS. BUTLER ENTERTAINS HONORING VISITOR

Mrs. M. P. Butler, Jr., 418 N. Beard street, entertained at bridge Thursday afternoon honoring Mrs. J. B. Turner of Oklahoma City. Those playing were Mmes. Paul Young, Cecil Mallory, John Skinner, George entem, Longly Fentem, S. M. Shaw, Jr., Roy Stegall, William Byrd, Alvin Tunnell, Hugo Wacker. Mrs. John Skinner made high score.

### MISS NICHOLSON HONORED AT ANNOUNCEMENT BREAKFAST

Mrs. W. M. Emmanuel and Miss Annie Weaver Jones entertained with a beautifully appointed breakfast at the Harris Hotel Saturday morning complimentary to Miss Julia Nicholson, announcing her approaching marriage to Mr. Hugh Biles of Ada, August 1.

Baskets of Shasta daisies were used for table decorations while Cupids of silver and gold marked the places for the following guests who were presented with corsages of daisies tied with ribbons of silver which held the announcement cards. Mmes. A. Linscheid, Hugh Norris, George Fentem, Misses Nicholson, the honor guest, Gertrude Montgomery, Reed Loving Watt, Stella Watson, Grace Givens and Ida Hoover.

### MISS BOLEN ENTERTAINS WITH PROGRAM DANCE

Miss Celma Bolen, 130 East Seventeenth street, assisted by her mother, Mrs. J. W. Bolen, Mrs. I. M. King and Mrs. J. H. Matta, entertained Friday evening with a progressive dance complimenting Miss Katherine King of Florence, Alabama, and Miss Rebecca Sparks of Ardmore.

Those dancing included: Misses King and Sparks, the honorees, Gervis Bills, Geraldine Hale, Eunice Bills, Roberta Allen, Evelyn Ames, Francis Case Mozelle Hunter, Annie Louise Shaw, Alice Gowing, Helen Hankins, Kathryn Wilenzick, Lois Burton, Ruth Bolen and Mrs. T. P. Smith. Messrs. Dewey Gilmore, Claude Thompson, Bruce Ligon, T. P. Smith, Floyd Haynes, Neil Stotts, Ed Andrews, Lloyd Chism, Vertis Hobson, Tom Harris, Wylie Blanks, Charles Cunningham, Miller Ligon, Fred Taylor, John W. Moore, Earl Fentem.

### OUT-OF-TOWN VISITORS ENTERTAINED AT BRIDGE

Miss Lois Burton, 101 East Seventeenth street, assisted by Miss Annie Weaver Jones, entertained at bridge Saturday afternoon complimenting Miss Rebecca Sparks of Ardmore and Miss Katherine King of Florence, Alabama. A color scheme of white and gold was used in the decoration with Shasta Daisies the predominating flower.

Those playing with the honoree were Misses Helen Hankins, Louise Meaders, Gervis Bills, Eunice Bolen, Moselle Hunter, Celma Bolen, Louise Barney, Geraldine Hale, Grace Statler, Grace McKeel, Marjory Norris, Roberta Allen, Annie Louise Shaw and Mrs. Jim Chapman. High and low score was made by Misses Statler and Helen Hankins. Corsages of Shasta Daisies, sweet peas and roses were given to the honor guests.

### W. S. HART SIGNS NEW PARAMOUNT CONTRACT

William S. Hart will return to the screen immediately as a Paramount star, it was announced yesterday by Adolph Zukor, president of the Famous Players-Lasky Corporation.

Mr. Zukor's announcement followed the signing of a contract under the terms of which the famous Western film star will make a series of productions of the type that made him famous. Work will start immediately in the Lasky studio, it was stated, and the first Hart picture probably will be released this coming winter. Present plans call for four Hart pictures a year during the term of the contract.

"I feel particularly happy," said Mr. Zukor, "at Mr. Hart's decision to return to the screen. Everybody who knows him knew from the beginning that the charges brought against him were ridiculous and wicked, but Mr. Hart steadfastly refused to consider returning to the screen until he had been completely vindicated before the public. It was only after his detractor had made a complete and unequivocal confession of the entire falsity of her story that Mr. Hart consented to appear again in a new series of pictures."

### TRAFFIC PROBLEM NOW BELIEVED SOLVED IN ADA

Traffic problem of the city is believed solved according to Mayor Fisher, following the campaign of education in the custom of stopping just before entering Main street. The Mayor says that people observe the ordinance now with few lapses of memory.

It is still necessary to jog the memory of some drivers but arrests on that count are becoming very scattering, the records show.

Read all the ads all the time.

## Young Student in Henryetta Contest Winner For Essay

Virgil Ryland, Jr., whose home is at Weleetka, and who is now attending the summer session of the East Central Teachers College, has been declared winner of first place in the essay contest on advertising conducted by the Henryetta Daily Standard.

By composing the best essay showing the value of advertising Virgil bested a large number of contestants and is now the holder of the prize of \$20 for first place.

Virgil, with his mother, Mrs. V. H. Ryland, is attending East Central for the second time. He is eleven years of age and is in the eighth grade.

DUNKIRK, France—The French government is about to send a vessel on a trip to South American ports loaded with an exhibit of French products. This business builder is the former German steamer Elnab, but her name has been changed to La Belle France.

Every child in Ada 5 years or older should see it.

## BIBLE THOUGHT FOR TODAY

HUMILITY AND EXHALTATION:—Humble yourselves therefore under the mighty hand of God, that he may exalt you in due time.—1 Peter 5:6.

## WHERE AMERICANS LOSE

We have frequently read that American firms are unable to get a foothold in Latin-American trade because they refuse to conform to the easy going methods of those countries, working on the theory that American methods are good enough for anybody. Recently we talked with two men who spent considerable time in Mexico and they confirmed this statement.

They said that when an English or German salesman hits a Mexican town they do not hustle in and try to land an order in the American style, for they know the habits of the Mexican business man and that "manana" is the matchword whether an American likes it or not. One of these salesmen will drop around and hold a confab with a prospective customer and never mention his business. Perhaps he takes him out to lunch and they have a few drinks together. In two or three days the salesman gradually works up to the subject in hand and lands the order where the American would fail. A town on this side of the border that a hustling American would work in a day requires at least a week in a Latin-American country.

Another thing that works against the American is that he thinks he knows all there is about shipping. If the purchaser orders something sent by parcel post, perhaps it will come by express, although there may be no express office in his town. He may order it packed a certain way so as to insure its safety, but the American thinks he knows how it should be packed and then very likely losses will occur. The result is that even an American is likely to patronize a foreign firm because he knows his orders will be followed explicitly.

The News is pleased to hear that the student loan fund of East Central College is growing to nice proportions and is becoming a factor in enabling worthy boys and girls to stay in school until qualified to earn good salaries. Sometimes a very slight lift at a critical time will mean the difference in a finished education and a life spent in the shallows of a half education. When forced to leave school it often happens that unexpected obstacles prevent one from getting back, hence the importance of completing the work at one time. This fund is not in the nature of a charity. The money is merely loaned to a student and when he begins making money he repays it so that it may be used by another. Thus it goes from year to year and the money does an incalculable amount of good.

The experience of the various groups at Chicago in trying to organize a new political party indicates clearly that the reds are still very actively at work. The regular farm and labor elements insisted on a declaration that the party would rely entirely on the power of the ballot in securing their ends and would not recognize any group that advocated force. However, the reds were strong enough to block the adoption of such a resolution and the law abiding delegates were left to face the issue of sticking with the radicals whose system stops at nothing or standing aloof from such companionship. These radicals are not numerous, when the entire population of the United States is considered, but they are perniciously active twelve months out of the year and attempt to control every organization they can get into.

The Republicans are said to be considerably worried over the situation in Minnesota where a special election is to be held in a few days for the election of a successor to the late Senator Nelson. Governor Preus is the nominee of the party, but the Farm-Labor candidate stands a good chance of election. Senator LaFollette is said to be backing the Farm-Labor nominee and the fireworks are becoming rather spectacular. Last year the Farm-Labor party elected a senator and if it wins again the Old Guard will indeed have reason to wonder what the world is coming to.

The Sulphur Times says that it is now intimated that Henry Ford was the man behind the curtain in the offer of a billion dollars for the government fleet that was put forward recently. The board turned down the offer without considering it, saying that it looked too much like a fake. If it develops that Ford was the man making the offer it will be a joke on somebody, for no one doubts that he could handle a deal of even those huge proportions.

A Connecticut man lays claim to being the laziest man in the world. He says he has never done a stroke of work in his life of 76 years. He lives the life of a hermit and has never been more than 20 miles from his birthplace. He spends his time reading Greek, Latin and the newspapers and just takes life easy.

An exchange with a fondness for ancient history wonders what has become of the old timer who spent most of his days expounding the free silver issue.

## PERSONA NON GRATA TO ENGLAND

## The Forum of the Press

### "Majority Rule"

(Oklahoma City News)

First, last and all the time defenders of the U. S. Supreme Court realize they have a real fight on their hands. They are beginning to bring real argument up to support their traditional view. They have discovered that raising their hands in horror when anyone questions the constitutional powers of the Supreme Court is no longer sufficient to stop the questioning.

Governor Ritchie of Maryland is one of the first to act on this realization. Addressing the Maryland Bar association, he has brought forth an argument against Senator Borah's proposal to require at least a 7-to-2 vote by the court before an act of congress may be declared unconstitutional.

Governor Ritchie says: "But the final answer to Senator Borah is perhaps the strongest. When ever you restrict the power of the majority, you necessarily increase the power of the minority. This proposal would give the minority power to put into effect a law which the majority believe is unconstitutional."

On the face of it, there is an argument that will appeal to many a lawyer. It says that if more than two judges—three, for example—declare a law is constitutional, they may thereby exercise greater power in that particular case than the six judges who say it is unconstitutional. In other words, majority rule goes overboard.

Good, as said, on the face of it, but we do not believe defenders of the present 5-to-4 practice will stand very long on the sacredness of majority rule. For a bigger institution than the Supreme Court is the U. S. Government as a whole. The U. S. government is composed of three

parts—legislative, executive and judicial. The most that can be claimed for the judiciary is that it is one of three equal parts.

Every act of Congress that reaches the Supreme Court is signed by the president and so represents the will of two of the three parts of the government. The Supreme Court itself is a minority of one against a majority of two every time it undertakes to declare any act of congress unconstitutional.

No, while this majority argument is the best that has been advanced thus far, it will not be found convincing by those who are determined through the Borah plan, the La Follette plan, the Owen plan or some other plan not yet brought forward, to make it harder for the Supreme Court to nullify the will of the people.

Acceptance of the "majority rule" doctrine of Governor Ritchie defeats rather than aids his argument.

### ENGLAND AND RUSSIA LINKED BY REGULAR AIR SERVICE

KOENIGSBERG, Germany.—Passengers may now fly from London to Moscow in nineteen and one-half hours of actual flying time. The air trip from London to Berlin takes eight hours. It requires four and one-half hours between Berlin and Koenigsberg, and the trip is made from here to Moscow in seven hours. Passengers leave London, Wednesday morning, take a night train from Berlin to Koenigsberg, and connect with the airship leaving here every Thursday morning for Russia. The service is daily between London and Berlin, tri-weekly between Berlin and Koenigsberg and tri-weekly between Koenigsberg and Moscow.

Dry wood is approximately one-third water.

Fur of the white fox is perfectly white in the winter only.

### NEW RUPERT HUGHES STORY FITS COLLEEN MOORE EVEN TO NAME

One of the most promising personalities to emerge to the fore in the screen world during the past two years is Colleen Moore, the charming twenty-year-old actress who is featured in Goldwyn's new Rupert Hughes comedy, "Come on Over," which will be screened at the American theatre for two days, beginning Monday.

As Meyna Killiea in "Come on Over," she shows herself a comedienne of rare ability. She was chosen for the part by Mr. Hughes and Goldwyn officials because of her great hit in the featured role in Mr. Hughes' previous photoplay, "The Wall Flower."

Miss Moore has been in pictures for five years, having started at the age of fifteen in D. W. Griffith's production of "The Bad Boy," with the late Robert Barron. Before joining Goldwyn she had recently appeared in "The Sky Pilot," "Dinty," "So Long Letty" and with John Barrymore in "The Lotus Eaters."

In "Come on Over," Miss Moore more than justified the faith of the author, Goldwyn's casting director and production chiefs in her screen ability. Her two roles in Goldwyn pictures have placed her in the first rank of the younger leading women of filmdom.

"I loved to play the part of Meyna," observed Miss Moore, after completing the picture, "because she is so unsophisticated, so absolutely natural in everything she does. Even the tantrum into which she flies when she reaches America and thinks her lover is about to be married to another girl, is perfectly natural and reasonable, considering her Irish characteristics and her lack of social training."

"Mr. Hughes' characters are always intensely interesting to the player who arts them. I think the chief reason for this is that every character he puts into a picture is real and natural, not imagined to fit some necessity of the plot."

### FITZHUGH

Mr. and Mrs. Vernie Oliphant, of Okmulgee, spent the week end with his parents, Mr. and Mrs. W. A. Oliphant.

Mr. and Mrs. Ill Williams have a big son.

Miss R. E. Wesson was the guest of Miss Bill Nichols Sunday.

Byrd Day and Vera Melton, were quietly married Saturday night.

Ed Phillips is here visiting his parents Mr. and Mrs. Jim Phillips

Mrs. Murphy's sisters returned to their home at Sulphur Saturday.

Johnnie Hart has come home to spend a few days.

Dayton Morgan suffered an attack of sickness this week, on account of getting poisoned.

Mrs. V. H. Oliphant and daughter Geraldine of Roff spent several day with friends and relatives here.

## CHOCTAW SCHOOL OLDEST IN STATE

Wheelock Seminary in McCurtain County Established in Year, 1833.

(By the Associated Press)

OKLAHOMA CITY, July.—The oldest school in Oklahoma is a Choctaw Indian girls' boarding school in McCurtain county, according to J. B. Thoburn, secretary of the state historical society. It is Wheelock Seminary, founded in the early part of 1833, which has had an unbroken existence since its establishment, Thoburn said.

Wheelock Seminary was named after the first president of Dartmouth college by the American Board of Foreign Missions' representatives who founded it. It is located in the far southeastern corner of the state, where a group of 600 Choctaws under Chief Thomas LeFlore settled after immigrating from Mississippi in 1832, according to Thoburn.

Prior to the removal of the Choctaws from Mississippi the American Board had established a number of missions among the tribesmen, Thoburn said. Many of these missionaries followed the tribe to its new home, or joined them shortly after the removal. Among the early missionaries were the Rev. Cyrus Byington and the Rev. Cyrus Kingsbury, names familiar to the older inhabitants of the eastern part of Oklahoma, especially that part which comprised the Choctaw Nation, Indian Territory, south of the Canadian river, according to Thoburn.

The Choctaw emigration from Mississippi was subsequent to the concluding of the treaty in September, 1830 at Doak's Stand, Mississippi commonly known as the Treaty of Dancing Rabbit Creek. The removal took place in the years 1831-1833 and was made in bands or companies of several hundred Indians each, under local chieftains.

The band or company known as the Thomas LeFlore company, comprising about 600 persons in the early part of 1832, settled in McCurtain county. Wheelock mission was established among them immediately after their arrival, the first meeting being held according to Thoburn Dec. 9, 1832 under the direction of the Rev. Alfred Wright. Within a few months the seminary was established, first as a mission school for all Choctaw children.

The original stone building has been rebuilt, added to and remodeled, and the school has been under several managements, but has functioned steadily and many of the leading Choctaw women of nearly a century have graduated from it. It is now provided for by tribal funds and governed by the Choctaw Nation under the supervision of the Indian department, in accordance with the Atoka agreement signed in 1898.

### YEAGER.

The farmers are just about up with their work until it rains again. The crops are suffering for rain. Mr. Ragland and daughters made a business trip to Ada Saturday.

Mr. and Mrs. Ivis Lindsey and children are visiting their father Mr. Marsh Ragland at Vanoss.

Longo Ragland is on the sick list.

Mr. Shipley went to the harvest field last Wednesday.

The Sunday school at Yeager is just doing fine. The little boys and girls are taking interest in it.

Come on akman we are wanting to hear some news for you.

## CHURCHES

St. Luke's Protestant Episcopal.  
109 E. 14th.  
The Rev. Charles L. Widney, in charge.

The 6th Sunday after Trinity.  
Church school at 9:45.  
There will be no service at 11.  
Evening prayer at 8 p. m.  
Meeting of the church committee is postponed to next Sunday.

**Bible Study Club**  
The East Side Bible Study Club will meet with Mrs. W. L. Sewell at 216 South Rennie Monday afternoon at three o'clock.

**Oak Avenue Baptist Church**  
All regular services will be held at Oak Avenue Baptist Church today.  
The pastor will be out of town but Rev. C. W. Hudson will preach both hours.  
Sunday School begins at 9:45.  
The Sunbeam Band meets at 3:00 P. M.  
Preaching at 11:00 A. M. and at 8:00 P. M.

J. H. Page Pastor

**Presbyterian Church**  
Bible school 9:45 a. m.  
11 a. m.—"Motive for Seeking Christ" will be the sermon topic.  
7:15 p. m.—Christian Endeavor Societies.

8 p. m.—"There was silence in heaven for half an hour." will be the text of talk on the value of a quiet hour. Our basement rooms are cool and restful so come in out of the hot sun and rest awhile with us in our Sunday services.  
E. O. WHITWELL, Pastor.

**First Christian Church.**  
"The Friendly Church."  
216 S. Broadway.  
Men's Bible class 9:30 a. m.  
Chamber of Commerce rooms.  
Bible school 9:30 a. m.  
Morning worship 11 a. m.  
Intermediate C. E. 7 p. m.  
Senior C. E. 7 p. m.  
Evening Service 8:15 p. m.

Owing to the pastor being called out of town Friday Mrs. Davis will fill the pulpit in the morning.

**First Methodist Church.**  
Sunday school at 9:45. Prof. R. S. Newcomb, Supt.  
Preaching at 11 a. m. and 8 p. m. by the pastor.  
Epworth League and Young People's society meet at 7 p. m.  
You are invited to worship with us.

J. H. BALL, Pastor.

**Nazarene Revival**

Large crowd at big tabernacle last evening. Rev. Morgan preached from Amos 4-12 "Prepare to meet thy God." First that men had an appointment with God and that we know not the day nor the hour He (Jesus) might come or call for us and the all important need of being prepared for this ordeal. He said that people were preparing to live here building homes which was right but had forgotten the most important thing and that was the preparation to meet their God. The message had its effect on the people. Several came forward for prayer and five prayed through to victory.

There will be one more week of the meeting, closing out on Sunday evening, July 15. We hope everybody will avail themselves of attending this last week of the meeting.

Sunday school—9:45 a. m.  
Preaching in tabernacle—11 a. m.  
Young people's society—7 p. m.  
Preaching—8 p. m.  
Everybody invited.

REPORTER.

Senior B. Y. P. U. of First Baptist Church

The Senior B. Y. P. U. will meet at the tabernacle on East Main at 6:30.

Subject: Teachings of Jesus.

Leader: Mr. Evans.

Introduction: Leader.

The First Epistle of Peter.

Mary Grundy.

Be Hopeful.—Mrs. Culpepper.

How Saved People Should Live.—Opal Little.

Foundation of Hope and Happiness.—Fred Miller.

God's Purpose in Making Us Priests unto Him.—Theodore Wauson.

Hearts Better Than Stones.—Abbie Kitchens.

General Exhortations.—Anna Perry.

For Our Meditation.—Verna Shirley.

**First Baptist Church.**

The services at the tent both last night and Friday night were exceptionally well attended. Mr. McCravy led the children in his usual excellent manner and the large chorus choir sang magnificently at both services. The pastor preached Friday night on the subject, "The Vine Abandonment," and at the close of the service there were several professions and additions to the church. On Saturday night another good crowd was present and a great deal of interest was manifested.

The Sunday school will begin today at 9:45. It is hoped to have a large attendance. During the warm weather there is a strong temptation to remain at home or to go off some place for the day, but we do not want to let up in our Sunday school attendance. The Men's Bible Class will meet at the McSwain theatre at 9:45. Mr. Huber is president of the class and will have charge. Mr. McCravy will be in charge of the music at the opening of the class. Jim Chapman will preside at the piano and Russ

sell Bond will sing. Mr. Ellison has returned and will be in his place as teacher today and lets show him what we think of him by greeting him with a large crowd today.

The morning service will be held at the church at eleven o'clock. Mr. McCravy will lead the music and will sing a special song. The pastor will preach at that hour.

The D. Y. P. U. will all meet at the tabernacle this evening at 6:30. Let all the young people be present. The evening service will be held at the tent beginning promptly at eight o'clock. The pastor will preach the closing sermon of the meeting on the subject, "Signboards to Heaven." It is hoped to have a large congregation present to hear this message. The public is cordially invited to attend.

The ordinance of baptism will be administered at the church on Monday evening at 8 o'clock. The pastor will speak on the subject of baptism at that time.

## EDITORS TO MEET FOR ANNUAL TRIP

Association Members to Start for National Conference from El Reno.

OKLAHOMA CITY, July 6.—Oklahoma editors on their way to attend a convention of the National Editorial association at Saratoga N. Y., July 17 and 18, will gather here for a banquet tonight arranged by E. S. Bronson of El Reno, secretary of the Oklahoma Editorial association.

Invitations to attend the banquet and join the delegation going to Saratoga have been sent to editors of all papers in the state, Bronson said.

The Oklahoma delegation will carry Indian souvenirs to officials of the national association, and 25,000 "Wampum certificates" to be distributed at the convention. As a part of the campaign to bring the next national gathering to this state the certificates will bear the lettering, "Redeemable in Oklahoma in 1924."

Peace pipes and tobacco pouches for the "greater and lesser chiefs" of the national organization, and handbags for their "squaws" will make up the list of souvenirs, according to Bronson. The pipes are reproductions of the peace pipes in the collection of the Oklahoma Historical society. Ten large pipes have been provided for the officers of the association, and 100 smaller pipes will be given to "lesser chiefs."

The Oklahoma delegation is expected to consist of more than a score of editors. They will join a sight-seeing tour at Chicago July 9, and will proceed slowly to Saratoga plans having been made for entertainments of the editors at many points enroute.

OKLAHOMA CITY, June.—The Producers' Cooperative association recently organized by a group of live stock men of the state, will open offices at the stock yards here July 2, it has been announced. Dan Gamitz of St. Paul has been engaged as secretary and hog salesman, and C. E. Smith of St. Louis will be cattle salesman.

## NEW GRADES FOR COTTON IN USE

Many Attend School to Learn Fine Points in Federal Classers Tests.

(By the Associated Press)

STILLWATER, Okla., July 6.—Revised United States government cotton grades which go into effect August 1 are being taught at the annual cotton school at Oklahoma A. and M. college which opened this week.

The new grades, and consequent need among cotton handlers to bring up to date their knowledge of the work of grading, and a campaign by the Oklahoma Cotton Growers' association, are large factors in an increased enrollment of more than 50 percent over last year, according to Prof. Glenn Briggs, who for four years has been in charge of the school.

Cotton firms and banks in the cotton section of sent their employees to the school, and these are added a number of graders who are here to learn the revisions, graduates of former courses seeking to review their work, buyers and ginner.

The cotton growers' association has urged its members to attend the school, according to Professor Briggs, because instruction in production methods enables the farmer to prepare his cotton so that it will rate from one to three grades higher than the average, and bring him an increased return of from \$5 to \$25 a bale.

Students from New Mexico, Arizona and Missouri are in attendance at the school for the first time. Texas and Arkansas are also represented, as they have been in former years. Professor Briggs said the course offered at the Oklahoma college specializes in the shorter staple varieties of cotton to a greater extent than other schools.

The opening enrollment is expected to be increased later by stud-

ents who come to take only instruction in grading, which is given in the later part of the course which lasts a month. In the first two weeks, instruction is centered on soil fertility, pest and disease control, and other growing and marketing problems.

Samples from 10,000 bales of cotton are to be used in the instruction in grading, which will be under the direction of George Butterworth, of the bureau of markets of the United States department of agriculture. R. G. Reeves of Mississippi A. and M. college will assist Professor Butterworth.

NOVEL PICTURE IS "CHILDREN OF JAZZ"

Manners, Dress and Customs of 1850 Shown in Photoplay

The manners, dress and customs of the folk of the 1850's are admirably shown in "Children of Jazz," a new Paramount picture, based on Harold Brighouse's play, "Other Times," which will be on view at the McSwain theatre for two days beginning Monday next. Theodore Kosloff, Ricardo Cortez, Robert Cain and Eileen Percy, all well known screen players, are featured.

Richard Forestall, an adventurer, is the son of a queer man living on an island with a score or more of dependents, all of whom seemingly belong to the era of the fifties. Their dress, manners and social customs are so radically different from those of today, as to render them racially distinct. It is these folk in the story that make "Children of Jazz" as different from the ordinary photoplay as day is from night.

It happens that Richard Forestall loves Babs Weston, daughter of a man of wealth. She is a modern jazz girl and when she engages herself to three men, Forestall renounces her in despair. She comes to the island with her jazz-loving friends in a hydroplane which is all but wrecked in a storm, and then things begin to happen. Thrill after thrill ensues until the climax, which is one of the most novel ever pictured.

The picture was directed by Jerome Storm, who directed Charles Ray's most famous pictures. The adaptation was made by Beulah Marie Dix. The supporting cast is exceptionally artistic.

## Robbing Hot Weather of Many Discomforts

"BE BIGGER than the weather" is the admonition of the Smiley Glads. Easy to say and hard to do. Mighty few of us welcome the hot wave.

True, one good way to rob hot weather of discomfort is to quit talking about it so much—but there are other just as practical helps;

Keep your refrigerator well filled; never let the ice run too low. Depend upon us for regular, prompt supply; co-operate by keeping the ice compartment free from foods or bottles.

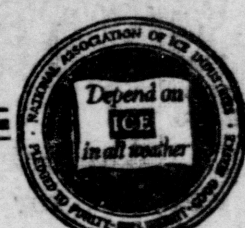

Then place foods properly in your refrigerator—only ice in the ice compartment; milk, butter and eggs directly beneath the ice; meats and covered foods in the middle compartments and strong-smelling vegetables in top compartments.

Pure ice—and plenty of it—will prove the greatest value for comfort and health that your money can buy—twelve months in the year.

## Farmers' Column

By Byron Norrell

## ABOUT THOSE FRUIT TREES IN YOUR BACK YARD

By T. C. McCormick  
Department of Agriculture East Central Teachers' College

Have you fruit trees or grape vines in your back yard? Two to one you have. Are the peaches you were hoping for this season small, spotted and tasteless? Or, just as they are about ripe, do they rot and shrivel on the tree. When you locate three or four early ones, showing red among the leaves, pick and bite into them—do you find them already occupied? Are the clusters of berries on your grape vines now turning black so fast that you are afraid that none will be left for you? If such is the state of affairs in your back yard, you need not be puzzled, as well as disappointed, for the reason is plain. Your fruits are not sprayed, or at least, they were not properly sprayed.

Fruit trees and grape vines are constantly attacked by a host of insect pests and plant diseases. Unless they are protected against these enemies, their crops, and finally the plants themselves are almost sure to be injured or ruined. It seems, however, that this fact is not generally realized, because fruits continue to be set out with enthusiasm, while later neglect follows as the general practice.

Peach trees are the commonest fruit grown in Ada. Unluckily, the spray mixture needed to control the worst peach diseases cannot be bought ready prepared, but must be home-made, and its making is very troublesome. This is suggested by the name, self-boiled lime-sulphur. Some kinds of plums demand the same spray. The other fruits are more accommodating, and can be sprayed with mixtures comparatively easy to prepare.

The kind of spray material that should be used depends also on the particular insects and diseases that are present. What is a good control for one pest, might be of no value for another.

Again, it is just as important to spray at the right time as it is to use the right material. In some cases, the time during which the spray will be effective is limited to ten days or two weeks. The condition of the tree and the habits of the pest must be taken into account. The matter is much simplified by the fact that horticulturists have worked on standard spray schedules for each kind of fruit, which may be safely followed by the amateur who lacks the knowledge to decide for himself what to do.

Finally, the spraying will be successful in proportion to the thoroughness with which it is done. This depends on the man and the spraying apparatus which he uses. As important as is spraying in the growing of fruits it should be noticed that pruning, cultivating, fertilizing, watering, and other attentions are hardly less necessary. The pruning of fruit trees and grape vines calls for some knowledge and practice. A little experience is needed to protect the trunks of trees from borers, to cultivate the trees, and to fertilize them properly.

In addition to some special knowledge, of course, the care of fruits demands a reasonable amount of time and energy on the part of the grower.

In the light of these facts, it isn't surprising that the average back yard fruit grower fails to get much good fruit. The wonder is that he gets as much as he sometimes does.

For many citizens, the most satisfactory way in which they might have fruit at home is to club together and employ the services of men who understand the care of fruits. The arrangement with such men should provide that they give whatever attention they consider necessary to the trees and vines of each owner. They would be paid by the individual owner a certain amount for each of his trees or vines cared for during the year. It is likely that men qualified for this work could be furnished by the department of agriculture of the East Central Teachers' College from among the students who wish to earn part of their college expenses while in Ada. If several members could be secured, a club of this kind should work well. There seems to be a good opportunity for such a club in Ada.

To some men, the idea of hiring help with the home fruits does not appeal. These men are of the type who find pleasure in acquiring the knowledge needed to care for their fruits, and like to use their information around the home. They find real recreation and profit in such work, in off hours. Such men can learn what they need to know in several different ways. The local county agent would no doubt be glad to give demonstrations, if asked. The department of agriculture at the Teachers College is also ready to help. For those who will study them, there is much help in bulletins on fruit growing which can be secured free by addressing the secretary of agriculture, at Washington, D. C., or the A. & M. college, at Stillwater, Oklahoma. They may also be obtained from the county agent's office.

Perhaps those back yard fruit growers who cannot see their way clear to provide in one of the above ways, or otherwise, to give their trees and grape vines proper care, should not attempt to grow the larger fruits at all. In most cases, their grounds might be occupied to better advantage by a combination of vegetables, shrubbery, flowers, grass, shade trees, or a chicken yard.

Whale sharks found in the Indian and Pacific oceans often attain a length of sixty feet, but are quite harmless.

Buy it—rent it—sell it—find it with a NEWS want ad.

## OIL SHARKS GOT BANK FUNDS, SAYS ACCUSED CASHIER

Phillip A. Drumm.

Phillip A. Drumm, cashier accused of making false statements to a bank commissioner in connection with the wrecking of the American State bank at Wichita, Kan., is said to have confessed to officials that he made loans amounting to over \$1,000,000 mostly to oil concerns. The failure of the bank is the largest in the history of the state.

## GUARDS ENCAMP FOR TWO WEEKS

Approximately 5,000 in Camp for Training Period at Fort Sill.

(By the Associated Press)

FORT SILL, Okla., July 6.—The largest military force the state of Oklahoma has ever assembled under arms gathered yesterday for the annual encampment of the national guard, under the command of Adj. Gen. Baird H. Markham. Approximately 4,800 enlisted men and 312 officers comprise the troops which go into tents at Camp Wolf.

According to General Markham, approximately 75 cities and towns of the state are represented by one or more units at the camp. Two infantry regiments, two field artillery regiments, a medical regiment, elements of an engineer regiment, several companies of division troops, two brigade headquarters staffs and the adjutant general's staff make up the list.

Three Oklahoma generals are at the camp, Adj. Gen. Markham, of Oklahoma City, commissioned by the governor a major general to command the 45th Division when organization is completed, now ranking as a brigadier general, Brig. Gen. Charles E. McPherson, of Durant, commanding the 90th Infantry brigade, and Brig. Gen. Alva J. Niles of Tulsa, commanding the 70th Field Artillery brigade.

In command of the infantry regiments are Colonel Charles F. Barrett of Oklahoma City, of the 179th Infantry, and Col. E. L. Head of Muskogee, of the 180th Infantry. Commanding the Artillery regiments are Col. William S. Keyes of Wewoka, of the 160th Field Artillery, and Col. William A. Graves of Enid, of the 189th Field Artillery. Col. William Holden of Tulsa commands elements of the 158th Field Artillery, and Col. Floyd J. Boland of Oklahoma City commands the 120th Medical regiment.

Other troops which are present include a division signal company, a division ordnance maintenance company, a division motor transport company, and the state staff, including employees of the adjutant general's office, among them nearly a dozen women.

Many officers of the various commands are accompanied by their wives and families, who are staying at Medicine Park or at Lawton.

Governor's day will climax the period of the encampment which lasts two weeks. It will be marked by a review of the Oklahoma division by Gov. J. C. Walton, accompanied by other state officials and members of the state legislature and officers of the governor's personal staff.

Routine of the camp for the troops is to consist of drills and schools for officers and non-commissioned officers in the morning and athletic games, recreation and various sorts of competitions, as well as schools in the afternoon. There are five bands at the camp. It was announced today.

(By the Associated Press)

MEXICO CITY.—Pacification of the republic will make it possible for the department of war to reduce its budget about 20,000,000 pesos for the coming fiscal year, according to advance statements from that department.

Except for the operations of a few hill bandits, the country is completely at peace, it is declared. Another war department project is to reduce to two years the term of enlistment for cavalry recruits.

Five thousand foreigners live in Hankow, China, 3000 of them being Japanese.

## MAIN STREET

—BY—  
V. L. E.

At social functions some people are very punctual in being late.

Young college flapper—"I say, professor, when girls go to heaven do they become angels right away, or do they have to pass a lot of stupid examinations?"

The easier the girl is to look at the harder she is to get, many cake eaters have found.

The abrupt fellow says it is not wise to tell all one knows, but some girls can't help it when they talk at all.

To be "among those present" is not always a social distinction, but to be among those pleasant is always a distinct privilege.

Things That Never Happen  
"Mother," said the flapper miss, "I'd rather be dead than have my golden tresses clipped."

Lawyers howl about long sentences but they get over it when they become judges.

Nowadays when a fellow gets all the arrangements for his moonlit evenings fixed, some other fellow comes along and removes the arrangements.

Men who hang their key rings on mail boxes for convenience sake on their late return home shouldn't howl about the burglar menace.

Bachelors are unfortunate. They have no homes to stay away from.

A lot of fellows start saving money for a rainy day by hopping on the water-wagon and then fall off when the first sprinkler comes along.

Local geologists claim that an oiled head is oftentimes an indication of shallow sand.

The girl that rushes upstairs and sees if I need another coat of powder and smells if I need some more perfume is oftentimes that one that arrives at 9 o'clock when the party starts at 8.

Fear that the water is wet is not the only drawback to some swim parties of two splashes.

LOST TOMBS OF JAPANESE ROYAL LINE ARE UNEARTHED

(By the Associated Press)  
KYOTO, Japan.—Tombs of six Imperial ancestors have just been discovered in obscure spots in the suburbs of Kyoto. They have been identified as those of the sons and daughters of Emperor Godaigo, who was banished to Oki Island by Ashikaga, the usurper, 584 years ago.

The Emperor Godaigo dispatched his sons to nearby provinces to raise recruits for his campaign against Ashikaga and their tombs are scattered around the country. The Imperial mausoleum board is making a search for ancient graves, with the hope that discoveries will be made which will help in the study of the history of the country.

## SALARY WORKSHIP LOSS TO IDEALISM

Prominence Give High Salary—Actors Detriment to Young Generation.

(By the Associated Press)

DES MOINES, Julp.—America will suffer a loss of idealism in the future because of the prominence given to huge salaries and fees paid to movie stars, prize fighters and baseball players, according to Clarence Hamilton, of Boston, in addressing today's session of the International Christian Endeavor Convention here.

"Modern heroes as pictured in the newspapers and magazines are not very desirable characters for our boys and girls to emulate," said Mr. Hamilton. "Practically all of them are placed upon a money-making basis. Character and achievement count for little with them. The prizefighter who can deliver a punch to knock his opponent senseless is given many big headlines before and after the effective punch is delivered and for that punch he gets several fortunes, besides notoriety which passes in our day for fame. Likewise the movie stars who can go through some capers and simulate virtues which they do not possess, are heralded as great men and women because they attract buyers of tickets to box offices. The same is true of baseball players.

"Boys and girls and young men and women who emulate these weaklings, termed and pictured as heroes are those who are contributing to our physical and mental and spiritual well-being. They should be lauded and emulated. The value of their work can not be appraised with the dollar sign. The idealism of America will suffer if the false standards of value are accepted by a large proportion of our American youth.

Slightly over 5.3 percent of the American dollar goes for fuel.

## Cooper Boasts Of Ten Knockouts In Journey To Championship Belt

Archie Cooper, state middleweight champion, has clamped down on his title with exactly ten of his fights on record as knockouts, statistics on his career in the ring has revealed.

Cooper, who has waded through eighteen legitimate ring battles for his present championship status, has only lost two decisions to conflict with his open claim on the state honors.

The Ada champion has never been put to sleep by an opponent's glove in the history of his ring bouts, his two lost decisions going to Battling Fox and Yenle Hendricks at Oklahoma City, in which he received the popular decision from the fans.

With his record of remaining on his feet through eighteen battles, Cooper stands ready to accept the challenge of any in his weight and promising to provide sufficient entertainment in any quarters.

Cooper just began to win, when he found that gloves fitted his hands and has continued his steady stride through the years that followed. In some of his first fights he obtained knockouts and easy decisions.

Several years ago, Cooper began to lick the boys around the gym at East Central College and then his rivalry could not be hatched at that institution, he invited outsiders to take a shot at it in willingness to pace the ring.

Dixon Takes Management

Under the management of A. R. Dixon, who early realized the prospects of the Ada middleweight, Cooper bloomed into one of the hardest prospects for ring enthusiasts in the state. Dixon kept his protégé well under rein and gradually worked him to take advantage of the best in the state ring.

The zenith of Cooper's importance in state fight circles came in the first match with Yenle Hendricks, former state champion at Oklahoma City. While losing the decision to Hendricks, he was easily the favorite and created such a demand by his showing that a return engagement was necessary to satisfy the Oklahoma City fans. Although losing the fight by decision, Cooper paved the way for his next fight which resulted in a decision over Hendricks and clinched the state championship belt.

Fight fans here maintain that Cooper's hardest battle was his first match with Battling Ivey of Wilson. Cooper demonstrated his enigmatic endurance when he came back in the last four rounds of his ten-round match after being knocked groggy by the Wilson banger. By reason of Cooper's sensational come-back, a sure decision for Ivey was handled as a draw.

Cooper's last fight with Young Clabby here July Fourth, showed marked degree of improvement gained through recent fights. The Ada champ seemed invincible and layed at will with the opponent who was rated as a top-notch fighter.

Left Jab Dangerous.

The reliable left jab, which Cooper has used to a marked advantage in all of his bouts, has been named the dean of his kind in state boxing circles. With lightning speed, Cooper shoots the jab almost at will with the terrific speed and weight of his body behind the blow. The left has proved the undoing of many who have sought to do well in battle with Arch.

Cooper has been aided materially through his fight career by the assistance of his sparring partner, Claude Sparks. Taking all the punishment available from the champion, Sparks has delivered efficiently and helped in building up the defense and offense of the Ada fighter.

The majority of Cooper's bouts have been fought here under auspices or direction of the Norman Howard post, American Legion.

Cooper's official record stands as follows:

- Soldier Thomas, knockout in 3rd round.
- Jimmy Delaney, knockout in 7th round.
- Potts Isaac, knockout in 3rd round.
- Bobby Reid, knockout in 7th round.
- Johnnie Patrick, knockout in 7th round.
- Wayne Cates, knockout in 4th round.
- Fighting Swede, knockout in 3rd round.
- Battling Fox, knockout in 3rd round.
- Young Clabby, knockout in 7th round.
- Sailor Art, knockout in 3rd round.
- Earl Lanes, won decision in 8 rounds.
- Battling Ivey, newspaper decision, 10 rounds.
- Haegebeck, draw, 6 rounds.
- Battling Ivey, draw, 10 rounds.
- Andy Toms, draw, 10 rounds.
- Battling Fox, lost decision, 6 rounds.
- Yenle Hendricks, lost decision, 6 rounds.

Infantile paralysis is an infection of the nerve cells in the front part of the spinal cord which control muscle movement.

Archie Cooper

## RIFLE EXPERTS TO ENTER MEET

America's Best to Compete for Entrance to World's Championship Title.

NEW YORK—Preliminary matches for the selection of teams to represent the United States in the international championship events at Camp Perry, Ohio, beginning in September, have been arranged in all parts of the country by the National Rifle Association. The matches at Camp Perry will mark the first international championship shoot in this country since 1913.

The Swiss team, one of the greatest in the world, is coming to the United States in an effort to recapture the Argentine trophy, emblematic of the world team championship, which it lost to the American team in 1921 and failed to retake in 1922.

Following the preliminary small bore matches now in progress, regional try-outs will be held throughout the country under auspices of the N. R. A. from August 1 to 15. These tryouts will be over the regulation international course and rifle men will be permitted to use any make or bore of rifle, provided no telescopic sights are used. Winners of these events will be sent to Camp Perry for another elimination contest from which a team will be selected to meet the invaders on September 18 and 19.

Major L. W. T. Waller, U. S. Marine Corps, will head the team. W. R. Stokes, of George Washington University, individual world champion will defend his title.

The free rifle team championship of the world is fired at 300 metres, in the prone, kneeling and standing positions. Long range firing at 800, 900 and 1,000 yards has always carried a strong appeal, so that in addition to the free rifle tests, it is planned to revive the Palma Trophy match, which originated in 1876 at the Centennial Celebration in Philadelphia.

It represents the long range team championship of the world, and is one of the oldest rifle shooting prizes in existence, antedating the free rifle championship by 22 years. Challenges have been sent Canada and Great Britain, Australia, New Zealand, and the republics of South America, inviting them to compete for the trophy.

## Minnesota Shows Prospect Now to Launch Boat Crew

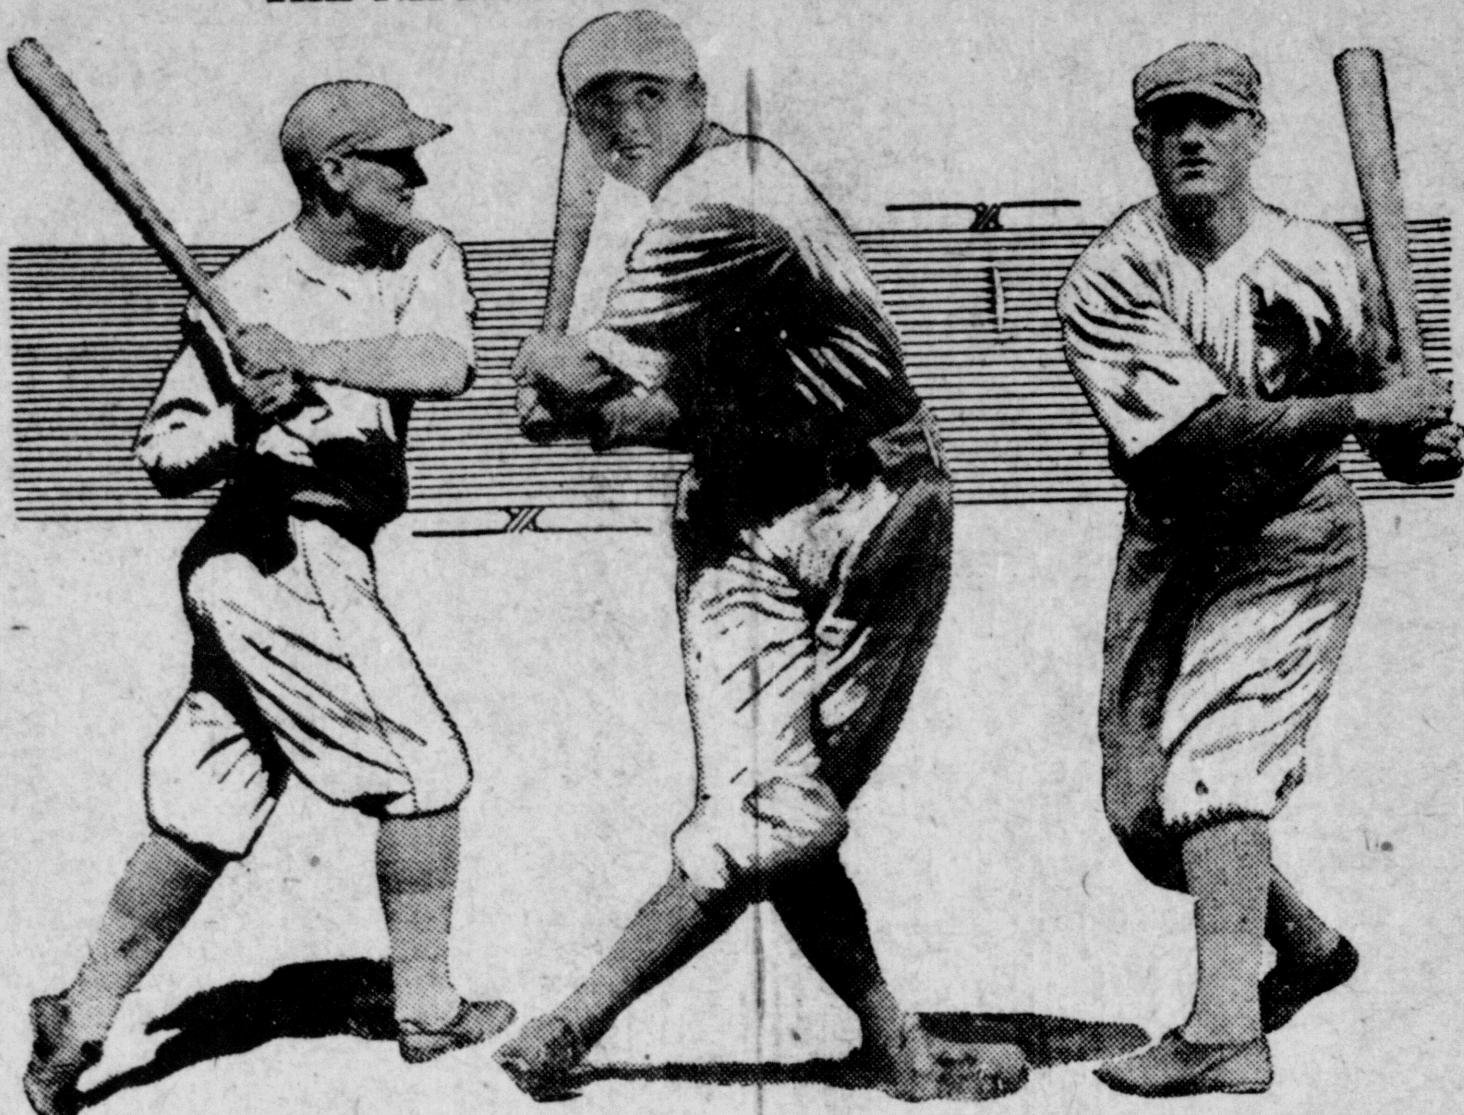

MINNEAPOLIS, July 7.—Prospects for a variety rowing crew at the University of Minnesota this fall are very bright.

With one of the best courses available along the Mississippi river adjoining the campus, Fred W. Luchner, athletic director, had just begun initial work in the training of a crew when vacation set in, but he plans to continue where he left off when the fall term resumes.

Several shells have been purchased by the university, and Coach Herb Watson had a crew of 35 men taking daily workouts during the later part of the term which ended in June.

The Gopher Outing Club is sponsoring the addition of this rowing sport to its athletic calendar. If a boat crew is finally formed, it is planned to arrange races with the University of Wisconsin, the Duluth Boat Club, St. Paul Boat Club, and other aggregations.

## THE NIFTIEST OUTFIELD IN THE MAJORS

The Athletic outfield. Left to right, Frank McGowan, Wid Matthews and Frank Welch.

The sweetest outfield in the major leagues today is the one Connie Mack trots onto the field daily. It trails one or two out-

fields in hitting but is the most brilliant fielding outfit in the big show. All three members make up in timely hitting and heady

base running what they lack in straight swatting ability. Matthews is hitting .300. The others are hovering near that mark.

## Tiger Grid Stars Now Impatient To Don Old Cleats For New Season

With much of the heat of the summer gone and with the opening of school approaching in early September sport fans may look forward to the biggest football season in the history of the college, says Coach M. Z. Thompson.

Attractive features of the fall sport program include the wealth of material from which the college team will be selected and the fact that all the big games of the schedule will be played on the home field.

The schedule has already been arranged, with two opening games with lighter teams to season the team for the stiff work to follow. Thompson considers the schedule for the coming year the best he has ever secured.

Murray Aggies and Sulphur School for Deaf will provide the preliminary morsels for the appetite, even now beginning to take form as the East Central Tiger is awakening to his annual feast.

Following these two games the conference teams will be played. Those which the Ada fans will see are with Weatherford, Edmond, and Durant, three hereditary rivals whose defeat will be sweet to those who have followed the record of the local teams in the past.

Conference games away from home will require trips to Oklahoma Baptist University at Shawnee, Oklahoma City College, and Northwestern Teachers College at Alva.

Edmond on Homecoming Day Homecoming Day has been set for November 3 when the team of East Central Teachers College from Edmond will invade the city and provide entertainment for the old East Centralites. This date comes in the midst of the annual district teachers meeting and will offer some diversion from the more serious matters occupying the minds of the teachers while here.

All in all Coach Thompson expresses himself as very optimistic over the prospects for a successful season, considering the fact that the best games are to be played here, the wealth of material and the able assistance of Assistant Coach Joe Milam.

Among the players of last years team who will don the moleskins when September rolls around are: Wilburn Capps, all-state tackle last year; Smith, Charles Cunningham, captain; Travis and Aubrey Kerr, both line men; Russell Gattlin, Earl Johnson, Jack Kelly, Josh Lee, Ray Thompson, Kirkpatrick, Jimmie McCoy.

Several will be available, who have starred for East Central in the earlier years of his history. Among them will be Roy Stegall, Gaylord McMillan, and "Bugs" Wallace, all of whom have made football history while playing here.

Wealth of Material A number of high school stars with excellent records, have been secured. Paul Kratz and Craig, both former Phillips players, will furnish competition for places on the first eleven. Willingham of the first eleven. Willingham of Ardmore will attend here. Frank Potts, Paul Rayburn, Turner King, and Jess Carr, all of whom graduated from the Ada high school this spring, will be on the field when the season opens. Jim Bell and Sam Henderson of Purcell will be among the new material. Long, formerly coach at Wayne and with four years of starring at Holdenville will compete. Homer Polly, All state man in football and bas-

ketball in Missouri, will enter the college here and will be available for the team. O'Dell of Maxwell, member of the Stillwater freshman team last year, will play here this fall. Dobbins of Coalgate, four year man, will be here.

Athletic director M. Z. Thompson will confine most of his work to classes and to supervision with much actual work with the football squad, which is too large for one man to handle. He will be assisted by Joe Milam who will do most of the actual coaching work in all branches of athletics.

Milam has been at East Central for the latter half of the past year, and is an experienced coach as well as former star. He played four years at Phillips University and one year in the S. A. T. C., taking part in all branches of sports. He was mentioned for all-state selection in football and basketball for two consecutive years. He coached the basketball team of that school year before last when the team was one of the chief contenders for the state championship honors.

The athletic section of the school work is under the direction of a faculty committee consisting of Hugh Norris, M. P. Hatchett, and R. S. Newcomb who work through the coaches.

The committee has been authorized to purchase new equipment in preparation for the coming season, and has approved the schedule. Negotiations are now in progress to fill the open date of November 9 either with Tahlequah Teachers College or Austin College.

Schedule for Season Active work of the players will not begin until the opening of the school year early in September as the players are scattered over the state at the present time.

The schedule for the season of 1923 is as follows:

- October 5, Murray Aggies here.
- October 12, Oklahoma School for Deaf, Sulphur.
- October 19, O. B. U., at Shawnee, first conference game.
- October 26, Weatherford, here.
- November 3, Edmond, here; homecoming game.
- November 9, open.
- November 16, O. C. C., at Oklahoma City.
- November 23, Alva at Alva.
- November 30, Durant will be here with a special train for anniversary Thanksgiving game. Report of the Savages intentions are already being received by Mr. Thompson and a great game is in prospect.

## Thompson Named on Committee to Form New Athletic Rules

M. Z. Thompson, director of athletics at the East Central Teachers College, has been named with Ed Gallagher of Oklahoma A. and M. College and E. B. Cottrell of Oklahoma City College on a committee to rewrite the constitution and by-laws of the Oklahoma Intercollegiate Conference, composed of most of the colleges and universities of the state.

This action has been made necessary by the rapid growth of all the members of the conference, forcing frequent changes in the rules of the organization. In the interests of efficient and convenient this committee was appointed to rewrite the constitution to be submitted to the conference at the next annual meeting in November.

## MORE SPACE FOR TIGER ATHLETES

Plan Improvements to Cope With Increased Interest in Athletics Here

Improvements in the accommodations for sport fans who wish to view the athletic contests of the Teachers College are being planned by the athletic authorities of the school.

The gymnasium is to be worked over in such a way that seating capacity for five hundred people will be made available without interfering with the court itself. The old balcony will be removed, taking away one of the obstacles in basketball contests.

More conveniences for the girls who are taking work in physical training are to be provided in the gym.

The athletic program for next year includes in addition to the football schedule for the fall term, a full season of basketball, baseball and track.

Feature entertainments will include the annual Homecoming Day football game with Durant, the basketball tournament during the winter months, and the district track and field meet that is held under the auspices of the college each spring.

Coach Thompson states that there is a possibility that the city park will be available for football contests this fall. A good sod field would provide excellent footing for the players and the seating capacity greatly increased over that of the college field.

## Fournier Raps Out Way In National League To Leader Of All Batsmen

Jack Fournier.

CHICAGO, July 7.—An ambition, cherished in the mind of Jacques Fournier, of Brooklyn for a number of years, has been realized. The big Frenchman who since he broke into the major has lived in hopes of some day being at the head of the column is the new leader among the batters of the National League, according to averages released today and which include games of last Wednesday. By cracking out nineteen hits, the happy son of France, boosted his mark from .342 to .384, which tops the players who have participated in 45 or more games. In his collection of hits, Fournier made five home runs during the week, in addition to collecting four doubles. Zack Wheat dropped ten points, and now is trailing Fournier with an average of .382.

The wonderful spurt of Fournier has been one of the most sensational in some time. During his march Fournier made a record of six hits in six times at bat.

Jimmy Johnston also of Brooklyn has been keeping step with his team mate and had shot forward into fourth place, with Young of New York. They are tied with .366.

Ed Rouch of Cincinnati is third with .374. George Grantham, of the Cubs has lost none of his cunning on the base lines. He is showing the way to the base stealers with twenty-three steals and is leading the two base hitters with twenty-three.

"Cy" Williams, of the Phillies, has recovered sufficiently to take his regular position, and is back in his batting stride. In the past week "Cy" cracked out two home runs and now leads the major league players with twenty-two.

Other leading batters: Frisch, New York, .363; O'Farrell, Chicago, .360; Grimm, Pittsburgh, .357; Bottomley, St. Louis, .347; Mogan, Philadelphia, .344; Southworth, Boston, .343; Traynor, Pittsburgh, .343; Hornsby, St. Louis, .343; Carey, Pittsburgh, .337; Bigbee, Pittsburgh, .330.

Harry Heilmann, of Detroit who stepped out in front shortly after the gong sounded, has remained on the top of the hitters in the American League. During the last week his average dropped from .425 to .419. However he continues to lead. His closest rival is Charles Jamieson of Cleveland, who is the runner-up with .375. Babe Ruth has batted himself into a tie for third place with Eddie Collins, of the White Sox. Each has a mark of .363. Ruth bagged two more homers, and ran his string to 16. Collins is blazing the trail for the base stealers with 27 efforts. Ken Williams of the St. Louis Browns smashed out a brace of four baggers and is trailing Babe for the honors with twelve. Ruth has increased his total base record to 163 and has added a dozen runs to his scoring record, having tallied 68 times.

Other leading batters: Haney, Detroit, .358; Witt, New York, .352; Flagstead, Boston, .338; J. Sewell, Cleveland, .333; J. Harris, Boston, .333; Ruel, Washington, .330; Cobb, Detroit, .327; Williams, St. Louis, .323; Myatt, Cleveland, .323; Hauser, Philadelphia, .317.

Carl East of Minneapolis has jumped from fifth place in the American Association to the top of the list. East is closing for .370. J. Smith of Toledo dropped into a tie with Lamar of Toledo for the runner-up honors, each having .369.

Bunny Briar of Kansas City who has fought with .368, increased his string as a run getter to 73 and his total base mark to 174.

Eddie Murphy of Columbus and Conney of Milwaukee are tied for base stealing honors with 19 each.

Other leading batters: Combs, Louisville, .362; Brown, Indianapolis, .355; E. Murphy, Columbus, .349; Christenbury, Indianapolis, .348; G. Wright, Kansas City, .347; Hammond, Kansas City, .341; Krueger, Indianapolis, .332; Haas, St. Paul, .332; Davis, Columbus, .330; M. Shannon, Louisville, .323.

The mark which Richbourg of Nashville established in the Southern Association before breaking his leg remains high among the batters who have participated in 45 or more games. Richbourg's average for 46 games is .378. Huhn of Mobile is second with .352. R. Williams of Chattanooga is training with .345 and Leonard of Chattanooga is one point behind Williams, with .344.

Bernsen of Nashville has batted himself into a tie with D. Clarke of Birmingham for home run honors, each having bagged eight circuit blows.

Cuyler of Nashville and Neun, of Birmingham who are tied for first honors with twenty-six stolen bases apiece.

Other leading batters: S. Clarke, Birmingham, .341; Taylor, Birmingham and Memphis, .336; Herman, Atlanta, .335; Bersen, Nashville, .334; Cuyler, Nashville, .332; Poss, New Orleans, .331; J. Miller, Birmingham, .327; D. Williams, Mobile, .322; Cueto, Mobile, .320; Smith, Little Rock, .317.

Diamond of Denver a week down in tenth place in the Western League, has launched a drive and is within striking distance of Bauman of Tulsa, who is leading with .398. Horan of Des Moines is the runner-up with .384 and Diamond is next with .377.

## MANY AIRCRAFTS IN ST. LOUIS MEET

Every Type of Airplane and Dirigible to Compete in National Meet.

(By the Associated Press)

ST. LOUIS—A program enabling virtually every type of airplane and dirigible to compete in the International Air Races here, October 1 to 3, has been prepared by the Flying Club of St. Louis.

In addition to the Pulitzer Trophy race, many other events designed to test the speed, durability and construction of the different types of aircraft have been arranged.

For the first time the Pulitzer race probably will assume an international aspect, as assurances have been received that Sadi Lacoite, the French ace, and Brack Pava, Italian aviator, will enter. The British government may enter Herbert James, the English ace, it has been announced.

The races will be over a 50 kilometer (31.07 miles) triangular course, similar to that in Detroit last year. Each corner of the triangle will be marked by a pylon 60 feet high and about 20 feet square at the base for the guidance of the flyers, who, it is expected, will make the turns at high speed.

The list of trophies and prizes has mounted steadily. In addition to cash prizes totaling \$13,000, numerous trophies emblematic of championship in the respective classes will be awarded the winners. Gold, silver and bronze decorations will be given pilots finishing second and third.

A cash prize of \$1,000 and a silver loving cup donated by the Chamber of Commerce of St. Louis, will be awarded winners of the "On-to-St. Louis" race. About 100 entries are expected from all parts of the United States and possibly points in Canada.

Other major events and prizes include:

Flying Club of St. Louis trophy, a silver loving cup, and cash prizes totaling \$1,000 for two-seated low-power planes; Liberty Engine Builders' trophy and \$1,500 in cash for military observation planes only; Aviation Club of Detroit trophy and \$2,000 cash for light commercial speed and efficiency planes; Merchant's Exchange, St. Louis, trophy and \$2,000 cash for large capacity planes, both civilian and military; Mulvihill Model trophy and \$300 cash, duration race for model airplanes; and the Detroit News Air Mail trophy and \$1,500 for air mail pilots.

Johnson Wins Title

(By the Associated Press)

WIMBLEDON, England, July 7.—William M. Johnston II, in the American lawn tennis ranking, is the new world champion on grass court. The diminutive San Francisco defeated Francis T. Hunter of New Rochelle, New York, ninth ranking American, in the final of the Wimbledon tournament today 6-0; 6-3; and 6-1.

Air Filled With German Radio.

NAUEN, Germany, June 18.—German wireless telegraphy flashed 51,139 words abroad in one day recently, surpassing all previous records. Thirty-five thousand words went to the United States alone, while most of the remainder was sent to Spain, Italy, Russia, and Egypt. The bulk of the traffic was handled here and at the Ellwangen station.

## INSURANCE RATE BE INVESTIGATED

Workmen's Compensation Pre-  
mium Rates in State Now  
Claimed High.

(By the Associated Press)

OKLAHOMA CITY, July 6.—Workmen's compensation insurance premium rates in Oklahoma are to be thoroughly investigated, following complaints by many large employers of labor that they are too high, countered by insurance company claims that a 20 percent increase is necessary, according to John T. Hamill, secretary of the state insurance board.

In a statement made public today Hamill revealed that the rates have been increased 10 percent by the state insurance board, and again reduced to their former level within the last month.

The state insurance board consists of E. W. Hardin, insurance commissioner, John Connolly, state fire marshal, and Secretary Hamill.

Although the National Bureau of Casualty and Surety Underwriters demanded an increase of twenty percent in premium rates, the board, at a hearing June 19, declined to grant the amount asked, but granted a ten percent raise, Hamill said. The raise was to go into effect June 29.

At a specially called hearing June 26, three days before the new rates were to go into effect, held when the underwriter's bureau protested the increase which was fifty percent of what they had asked, the board rescinded the entire raise and directed the investigation of rates which Hamill plans to make at once, he said.

In combatting the raise asked by the underwriters, according to Hamill, it was shown at the second hearing on the subject that the Ninth legislature increased benefits for injured employees from 50 percent to 66 2-3 percent of the average weekly wage lost on account of injury. It was shown that this increases the amount of insurance the employer is forced to carry for his workers, thereby increasing the premium incomes of the companies selling insurance.

"The companies claim that their experience in this state has been had this last year, but I am going further back than that and find out what it has been for the last five years," said Hamill. "And I do not believe that the rates should be increased until it is shown by at least another year's experience that the increase asked is justified."

Hamill said there are 30 casualty insurance companies doing business in Oklahoma.

Card of Thanks

We wish to thank our many friends for their kindness and assistance in the death of our dear baby, Robert Lee, and for the beautiful floral offerings.  
Mr. and Mrs. Lee Cook.

The newly completed road through Tioga Pass in the Sierras of California attains at times a height of 10,000 feet.

## Boy Scout News

(By Harry Miller)  
Camping trip No. 2 will start next Tuesday. It will be to Turner Falls. This trip will be just for three days. It will cost \$1.75 and eat. Only 20 boys can go on this trip. This trip is for scouts only. If you want to get in on this trip you had better apply early. Turner Falls is fixed up fine this year. All boys have a good place to sleep under cover. If you are interested see Mr. Miller at once at the Chamber of Commerce.

Vanoss scouts plan to have a great celebration in connection with the Mothers' Club meeting next Saturday. There will be all kinds of scout contests, athletic events, literary events and the like. The scouts of that place are trying to raise enough money to pay for their camping trip and the mothers club will use the money they make to beautify the school grounds. We are very anxious to have the Community band go over and play for them on that date for the scouts and the mothers of that place are trying to do things over there and if they have a little help they will sure put over their program. Troop No. 3 went for a swim on the fourth and had a great time.

All scout troops in the city should plan for more outdoor meetings at this time of the year for the boys like the out side better than the meeting place in the room.

The camping trip to Turner Falls consisted of 21 boys and three men. Mr. Shipman of the Ada Mat-

ress factory took us

and back and did it in record time.

The new Ford truck made all the hills with the heavy load except

one and it would have taken a much

heavier truck to task to have done

it. Tom Harris recently of Okla-

homa City went along and we turned

over to him the responsibility

of looking after the eats and in

planning the meals.

He the kitchen police which he

did with perfect satisfaction to all.

The camp was divided up into

groups by Mr. Harris and scout

contests, athletic contests were par-

ticipated in by the different groups.

William Fishbeck's group of boys

won the award for being the best

kitchen police. These boys did all

the duties of kitchen police to the

satisfaction of Mr. Harris.

The boys in this group were Wil-

liam Fishbeck, captain; Kermit

Gregory skillet washer; William Je-

ter, pan wiper; Betros Core, kettle

cleaner; LaVerne Smith, water and

wood carrier. These are the boys

who took the honors away from

the others. The captains of the

other groups were Clinton Van

Curon, who likes apricots better

than any other boy in camp; L.

J. Gregg, better known as fat, who

would rather throw a shoe at

night than eat ice cream; Robert

Lee Williamson, who says that Wil-

liam Fishbeck crew would never

have won first place if they hadn't

seen how well they had to do it to

beat his group.

The best all round camper in the

camp, and if any one doubts the

ability of this scout above mention-

ed to do some fancy diving stunts

he ought to see him in action at

a swimming hole. If you want to

have a real hilarious good time

next week come to the Chamber of

Commerce early and see Mr. Miller

about the next camping trip to

Turner Falls.

## PROPOSE COMMON SENSE IN SAFETY EDUCATION

(By the Associated Press)

NEW HAVEN, July 7.—Safety instructions in the public schools which teaches children to avoid accidents in street traffic is as necessary a part of education as the three "R's" in this day of complex civilization, Dr. E. George Payne, professor of education at New York University, told the convention of School Superintendents and Principals of Connecticut in session at Yale University today.

Eight thousand men, women and children met death by accident in the United States during the last year, the speaker said. Of this number 49,000, a life every ten minutes, might have been saved by the general application of safety instruction in schools. "The reason for this needless sacrifice is that the development of modern civilization has been so rapid our intelligence has not kept up with it."

"Installation of safety instruction would require but inconsequential changes in present public school curriculums," Dr. Payne declared. "The method simply assumes that the teacher utilize accident situations to give purpose to the school work. In writing exercises, instead of writing the familiar 'Now is the time for all good men to come to the aid of the party' we can write 'In crossing the street look first to the left and then to the right.'"

"Instead of drawing sunsets and shady forests, something within the experience of the child should be chosen, such as the right way and the wrong way of getting on and off street cars, and the right way of crossing streets."

THACKERVILLE, Okla.—Peaches and plums are holding the center of the state now in this town in the heart of Oklahoma's orchard district. The Gold plums will be ready for shipment about July 15, and smaller red plums are being shipped now. Cherry plums will not be ready before August 1. Several orchardists have quantities of Elberta peaches ready for the market, they have reported.

## NEW FORD PLANT OPENED FOR USE

New York Plant to Furnish  
Second Largest Outlet  
for Ford Cars.

DETROIT, Mich., July 7.—Requirements of the Ford Motor Company for increased manufacture will bring a rapid expansion of the company's plant at Green Island, N. Y., it is just announced by the Ford News.

When the plant is ready to operate at its full capacity it will take its place as one of the dominant manufacturing institutions of the country, the announcement says, and in the volume of production will be second only to the Detroit plant. A feature will be the employment of farmer help during winter months permitting them to work on the farms during the summer.

At present production is limited to that of radiators and ring gears, employing 625 men, but this force will be increased as soon as new machinery is installed.

A new department will soon be opened for the manufacture of springs and will give employment to 400 additional men.

Extensive improvement and development of the waterways in Green Island section also is contemplated by the Ford Motor company and will include an all-water route to Detroit. The property will be flanked by a massive concrete water front and this dock system will be equipped with cranes and other paraphernalia to be employed in extensive water shipments.

Construction of all new Ford plants on sites with abundant water supply is significant of the part navigation and electrical power will play in the future expansion program of the company.

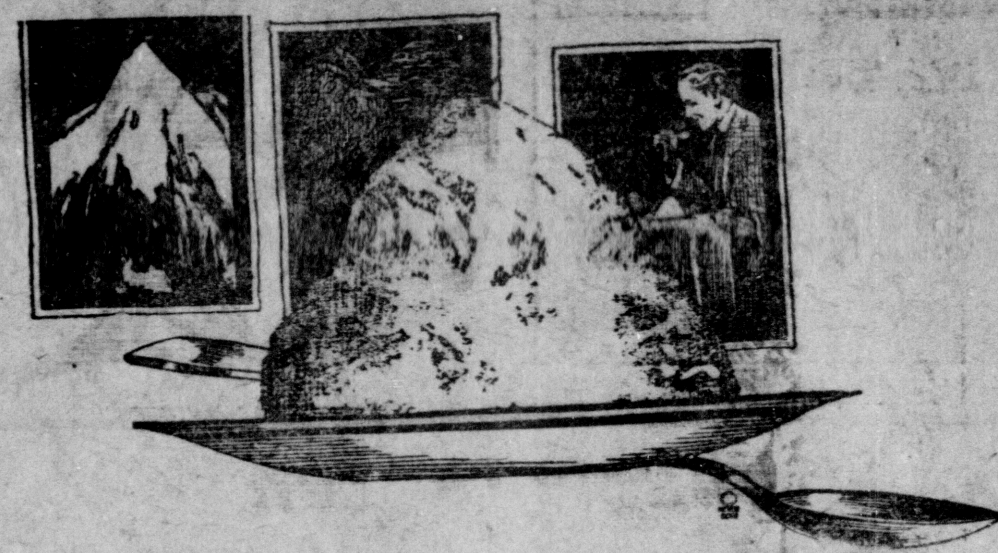

The Green Island hydro-electric plant, erected in 1921, after the government granted permission to the company to utilize the power from the dam at Troy, now houses four uniquely designed low-head turbines which are the largest of their type in the world. They operate as "double-current" generators, producing both alternating and direct current. The capacity of the power house is 8,000 horse power.

The plant area at Green Island is 189 acres and the manufacturing building is 120 by 1100 feet. It is operated exclusively by electricity, even to the heating.

Millions have already  
seen it, a few have not.  
Now is your chance.

## Tourists Parks Essential To Progress Of Traffic In Present Travel Mode

(By BYRON NORRELL)

With the rapid increase in the use of the automobile, there has come a bid for the tourists' trade and the various towns along well known highways are providing free camping grounds in lieu of the old time wagon yard that served so well in the days when the wagon was the chief means of transport. If tourists can be induced to spend the night in a town they are likely to add a little to the circulating medium of the community and perhaps repeat on their next round.

Recently I had occasion to visit several of these parks. The first was at Eufaula. It was a nice little grove with water for the traveler and a tent where one might get in out of the weather. We stopped and cooked some supper and then went to Checotah. The camp there is not far from the center of the town and consists of about half a block of ground. It has two small buildings, one for sleeping and one provided with gas where the traveler may cook his meals. About half a dozen cars were parked there for the night.

The next one was at Wagoner. At that place the city park and fair grounds adjoin. The tourist may drive into fair grounds where he is in reach of a building if he prefers to sleep under shingles, and just across the fence is one of the most beautiful little parks of 10 acres in Oklahoma. In this is a bathing pool where one may take a plunge in case he is the worse for wear as the result of a day's travel.

We were told that the Muskogee park is one of the best equipped of any along the route but did not have occasion to stop there. A garage man said that the trouble is that it is too well fixed up for the comfort of travelers and that sometimes tourists just stay with the result that it may be overcrowded.

A noticeable feature along the road was the sign board telling the traveler how many miles it was to the next free camp ground. Then on arriving one finds more signs to direct his course to the stopping place.

On coming home I took a little run out to the Ada park to see how matters were progressing there. Although no house has been provided for travelers, there is plenty of water and a shower bath awaiting him, if he wants one. The Motor Club has made a deal with W. E. Heady who is building a store on one corner and will be in charge of the grounds. Mr. Heady said one of the first things he expects to do is to beautify the grounds and put out a lot of flowers and shrubbery. It is a nice location and the visitors may wander off down into Glenwood park if they want more recreation and may take a plunge in the bathing pool, if they like a swim better than a shower. However, I would suggest that whenever it is possible to do so, signs should be posted along the road informing the traveler that a comfortable spot awaits him here, if he wants to camp out. A few more signs about town directing him to the park and a sign at the ground itself might be a good thing.

I consider a camp ground of this kind a necessity for a live town in these stirring days. With so many scattered over the country the town that does not provide one is going to be at a disadvantage. Hence Ada citizens would do well to give their park some attention and make it attractive for travelers.

### COUNTY SCOUTS HANG UP ENROLMENT RECORD

Boy scouts of Pontotoc county will receive a pennant as a personal gift from President Warren G. Harding for their completion of a twenty-five per cent increase membership drive, according to the announcement of Harry Miller, scoutmaster.

An increase in enrolment of exactly 100 scouts, during the fiscal year was the remarkable accomplishment of the county council, which entitles the Ada scouts to national distinction.

One year ago Scoutmaster Miller sought the co-operation of scouts of the county to bring the enrolment to the new perch. At that time 407 scouts were on the rolls in Pontotoc county. The enrolment has been increased to 507.

In taking over this new distinction, Pontotoc county scouts enjoy a singular reputation in the state as no other scout council has completed the drive.

Scoutmaster Miller lays the responsibility of this record accomplishment to the superior leadership of scoutmasters of county troops and the wide field of activity enjoyed by Pontotoc county scouts during the past year. Five scoutmasters have passed first class scout tests.

Oil Auction to Be Held  
(By the Associated Press)

WASHINGTON, July 7.—Auction of oil and gas leases upon 728 acres of public land in the Serly Lake district of Louisiana will be held August 29 at Shreveport. Titles to the tract were recently bought by the government as a result of court action.

### CENTRAL STATES NOTE AUTO TRAVEL INCREASES

CHICAGO, July 6.—There has been approximately fourteen per cent more travel by touring automobiles through the Central States, both east and west bound, during the first five months of this year than during the corresponding months of last year, according to statistics compiled by the Chicago Automobile club.

During the first five months in 1923, 17,443 motorists registered at the Chicago club, as compared with 15,153 during the first five months of 1922.

The answers to the call of the road began in January, when 1,900 tourists registered. This was 50 per cent more than in 1922 when 1,308 tourists stopped at the club during January. The travel continued heavy during February, when 1,276 registered as compared with 1,000 during February, 1922. The March figures were: 2,023 in 1923 and 1,594 in 1922. In April 3,916 registered as compared with 3,862 in April, 1922.

The increase jumped again in May when 8,268 tourists registered as compared with 7,380 in May, 1922.

### MOTOR CLUB OUT FOR NEW RECORD

Stall Reports Progress for  
Plans on Tourist  
Camp Here.

The letter ballots deciding the election of the board of directors of the Ada Motor Club for the coming fiscal year are in, according to N. B. Stall, present president. The resulting membership of the board is as follows:

Charles Zorn, W. L. Whittaker, Joe Cole, H. B. Roach, Gary Kitchen, J. R. Kitchel, W. M. Pegg, C. V. Gowing, N. B. Stall, Jess Emry, D. S. Abney, Bill Coffman, and W. E. Harvey.

A meeting of these newly elected directors is called for Tuesday evening at 8:30 at the Chamber of Commerce rooms. At that time officers to serve for the next fiscal year will be elected.

The Ada Motor Club points with pride to its accomplishments of the past year. The tourist camp grounds on West Main have been put into good shape for the use of those travelling through the city.

Gas, lights, and water systems have been installed in the grounds and the bathhouse renovated. It is planned to erect four large signboards advertising the location of the camp grounds on the highways leading into the city.

The club has under consideration the proposition of tapping the gravel highway leading south from Tishomingo, connecting with that road by way of Byrds Mill. Such a connection, with the bridge over the Canadian now in view, would then possibly be made into a national highway.

Reports of the condition of the roads about Ada and throughout the state have been available through the efforts of the national motor club. Such reports are received here regularly and tell what roads are in the best condition and advises as to ways of travel.

## Exide BATTERIES

Are Your Having  
Battery Troubles?

If your battery is not acting right, there may be some very simple thing the matter with it. Or there may be something serious.

In either case, a skilled batteryman should examine it at once. Nothing takes the joy out of motoring more than battery troubles.

No matter what kind of battery you have, or what seems to be the matter, let us have a look at it. If it is repairable, we will repair it quickly, reasonably—and right.

Traveler Views Difference in  
Policies on Highway  
Problems

(By Byron Norrell)

A person does not have to travel very far in Oklahoma to see a variety of roads and the difference in the policies of the various counties.

A few days ago I had occasion to make a cross-country trip and was given a striking demonstration of this condition.

Of course the gravelled stretch from Ada towards Allen was fine and the rest of the distance to Allen was not so very bad. Between Allen and Calvin very little repair work had been done since the rains and the roads were something fierce. From Calvin to McAlester, thence north to the Canadian river, they were rough. However, Pittsburg county has voted bonds and will soon have work under way on the highways.

From the river north through McIntosh and Muskogee counties the road (Jefferson Highway) was chattered and in fine shape. They were not so good in Wagoner county. Leaving Muskogee, the road west is chat and asphalt and in good shape. There is a break of five or six miles in the good road in the Bald Hill oil field, but after passing that the traveler finds a real road. From there to Okmulgee the highway is concrete with an asphalt surface. Here is where one can go some.

The concrete-asphalt road from Okmulgee to Henryetta is still in course of construction, there being a gap of a mile or two a few miles south of Okmulgee. However, the finished portion is a delight to travel over.

These roads have cost a lot of money, but it is a safe bet that not a tax payer would vote to go back to where the county was before the good roads were built. I have always been a believer in good roads and this trip makes me a stronger advocate of them than ever.
